University of Massachusetts Medical School

Descriptive Summary

Repository: Lamar Soutter Library, Office of Medical History and Archives
University of Massachusetts Medical School

Identification: SC 1

Creator: Wheeler, H. Brownell, 1929 –

Title: H. Brownell Wheeler Papers, 1961 - 2009

Date(s): 1961-2009

Quantity: 46 boxes including documents, photographs, slides, video and audiocassettes, 9 oversize folders, oral history recordings, books, a portrait, and artifacts.

Abstract:

The H. Brownell Wheeler Papers document the early history of the University of Massachusetts Medical School (UMMS) and University Hospital, collectively known as University of Massachusetts Medical Center (UMMC). This collection also chronicles Dr. Wheeler’s career as a vascular surgeon, educator, administrator, end-of-life care advocate, and inventor. Also included in this collection are materials related to Dr. Wheeler’s personal life including his interest in travel and wood sculpting.

Access Restrictions: Access to patient information is restricted for 80 years from the date of creation and thereafter is governed by the Health Insurance Portability and Accountability Act (“HIPAA Privacy Rule”). Access to personal information relating to H. Brownell Wheeler is restricted for 10 years and thereafter is accessible by permission of the Archivist. Access to oral history recordings or transcripts of recordings is restricted for 10 years and thereafter is accessible by permission of the Archivist. Access to other restricted materials may be requested by completing a Restricted Records Access Request form.

Preferred Citation: The proper citation format for any item from this collection is:

The H. Brownell Wheeler Papers, 1961-2009, University of Massachusetts Medical School Archives, Lamar Soutter Library, University of Massachusetts Medical School, Worcester, Massachusetts.

Processing Information: Processed by Kristine M. Reinhard, March 2009
Updated to include accruals, October 2009, May 2013, June 2014
Biographical Note:

H. Brownell Wheeler, a vascular surgeon, was the first faculty member and first department chair to be hired by the University of Massachusetts Medical School. As right-hand man to founding Dean Lamar Soutter, Wheeler played an essential role in the school's early development and maturation. Known as “Brownie” to friends and colleagues, Dr. Wheeler was born July 21, 1929 in Louisville, Kentucky. He graduated from Vanderbilt University in 1948 and received his medical degree from Harvard University in 1952. He completed his surgical training as an intern at Peter Bent Brigham Hospital (now Brigham and Women's Hospital) in Boston from 1952 to 1953 and continued his training as a resident at West Roxbury Veterans Administration Hospital from 1955 to 1959. Dr. Wheeler’s training also included fellowships at Harvard as a Harvey Cushing Fellow in 1953 and as a George Gorham Peters Fellow from 1956 to 1957. From 1956 to 1957 he also had a fellowship at St. Mary’s Hospital in London, England and was a United States Public Health Service Trainee at Harvard from 1959 to 1960. Dr. Wheeler served in the military as a First Lieutenant in the U.S. Army Medical Corps, Korean Service, from 1953 to 1955.

Along with a faculty appointment at Harvard Medical School from 1961 to 1972, where he became Associate Professor of Surgery in 1970, Dr. Wheeler held hospital appointments at Peter Bent Brigham Hospital from 1959 to 1972, and West Roxbury Veterans Administration Hospital from 1960 to 1971. During his tenure at the Veterans Administration Hospital he was Chief of Surgery and Program Director of Residency Training in Surgery from 1962 to 1971 and was the hospital’s Chief of Staff from 1968 to 1971. In 1966, early in his career, Dr. Wheeler was asked by Dr. Lamar Soutter, founding Dean of the University of Massachusetts Medical School, to act as a consultant in planning the new medical school and to become the Founding Chair of its Department of Surgery. Dr. Wheeler accepted Dr. Soutter’s proposition and, with keen interest and enthusiasm for building the new medical school, he balanced his surgical and teaching responsibilities with the duties of his new position. The medical school opened in 1970 and in 1971 Dr. Wheeler and his family, including his wife Elizabeth Jane (Maxwell) and children Stephen, Elizabeth, Jane, and Mary, moved to Worcester. With this move Dr. Wheeler successfully combined his role as Professor and Chair of the Department of Surgery at the medical school with that of Chief of Surgery and Program Director of Residency Training in Surgery at Saint Vincent Hospital, a position he held from 1971 until 1976 when the new University of Massachusetts Hospital opened. Dr. Wheeler held many positions involved in establishing the medical school including being a member of the Medical School Executive Council. He chaired several committees including the Educational Policy Committee, the Group Practice Advisory Committee, the Animal Laboratory Committee, and the Search Committees for the first Chairs of the Departments of Radiology, Anesthesiology, Neurosurgery, Urology, and Ophthalmology. In recognition of his dedicated service to the medical school, Dr. Wheeler was awarded the University Medal for Outstanding Service in 1984.

Dr. Wheeler also played a vital role in the planning and construction of the hospital and the development of its policies and by-laws. From 1974 to 1976 he was the hospital’s first Chief of Staff and also served as Founding Chair of the Hospital Executive Committee. With the opening of the hospital in 1976 he continued to hold various leadership positions such as Chair of the Operating Room Committee and Chair of the Operating Room Executive Committee. Dr. Wheeler served as the elected representative of the Medical Staff Executive Committee on the Hospital Management Board and was the Group Practice representative to the Hospital Special Advisory Committee.

A gifted and well respected surgeon, Dr. Wheeler not only developed the Department of Surgery at the University of Massachusetts Medical School, he also directed an integrated surgical residency program that included the University of Massachusetts Hospital, Saint Vincent Hospital, Worcester City Hospital, and Worcester Memorial Hospital. Appointed the Harry M. Haidak Distinguished Professor of Surgery in 1985, his medical interests focused on surgical education, vascular surgery, deep vein thrombosis, pulmonary embolism, and non-invasive diagnosis of vascular disease, subjects on which he
Dr. Wheeler’s prominence in the field of surgery led to his being elected President of the Worcester Surgical Society, the New England Society for Vascular Surgery, the New England Surgical Society, and the Boston Surgical Society. He was a director of the American Board of Surgery from 1984 to 1990, President of the Worcester District Medical Society, and a member of many other prestigious organizations including the American College of Surgeons, the Society of University Surgeons, and the Massachusetts Medical Society.

Dr. Wheeler’s interest in the collaboration of science and technology and their application to patient care led to his patenting several inventions including the occlusive impedance phlebograph. He helped found and was Executive Director of the Center for Advanced Clinical Technology at the University of Massachusetts Medical Center and Co-Director of the UMass/Smith & Nephew Center for Research in Endoscopic Surgery. He was Chairman of High Technology Alternatives to Surgery at the University of Massachusetts Medical School and Hospital and also held an appointment as Affiliate Professor of Biomedical Engineering at WPI (formerly, Worcester Polytechnic Institute).

In addition to his work as a respected vascular surgeon, educator, scientist, and administrator, Dr. Wheeler’s interests extended to medical humanities including ethics and the history of medicine, and medical humanities issues of end-of-life care, empathy, and the doctor-patient relationship. He was selected by the Massachusetts Medical Society as the prestigious Centennial Shattuck Lecturer in 1990 and upon retiring from surgical practice in 1996 Dr. Wheeler focused on ways to improve patient care, particularly care at the end of life. He was instrumental in developing a medical school course on end-of-life care and became Chair of the Worcester District Medical Society’s Committee to Improve End-of-Life Care. This led to the creation of the Central Massachusetts Partnership to Improve End-of-Life Care which won the national 2003 Award of Excellence for best emerging end-of-life coalition from the Robert Wood Johnson Foundation. Dr. Wheeler was founding President of the Massachusetts Compassionate Care Coalition from 2001 to 2004 and Chair of the University of Massachusetts Medical Center’s Working Group to Improve End-of-Life Care. He was also Chair of the Advisory Board of Hospice of Central Mass, Inc. and was a member of its Board of Directors.

Dr. Wheeler was the recipient of numerous awards including the 2002 A. Jane Fitzpatrick Community Service Award from the Worcester District Medical Society and the 2005 Lifetime Achievement Award from the Massachusetts Medical Society. In 2014 he was awarded an honorary degree from the University of Massachusetts Medical School. Along with his outstanding contributions to the University of Massachusetts Medical School and his considerable professional involvement in medicine, Dr. Wheeler pursued his interest in art and travel. He was a wood sculptor and exhibited some of his work in art exhibits at the medical school. He and his wife also traveled extensively and hiked in such places as Tibet, Nepal, Italy, and Greece.

**Scope and Content:** This collection documents Dr. H. Brownell Wheeler’s professional career at the University of Massachusetts Medical School and consists of materials related to his work in helping to establish the medical school as well as materials documenting his role as the school’s first faculty member. Architectural drawings and blueprints, policy and program planning materials, reports, committee meeting minutes, correspondence, and documents pertaining to faculty recruitment and curriculum development comprise a large portion of the collection. University Hospital planning documents, by-laws, correspondence, and meeting minutes are also included. The collection also is composed of materials associated with Dr. Wheeler’s work as a vascular surgeon and with his role as Chief of Surgery and Chair of the Department of Surgery. It includes correspondence, newspaper clippings, journal articles, meeting minutes, patient files, and notes. Dr. Wheeler wrote and lectured considerably on vascular issues particularly non-invasive diagnostic techniques, and his notes, lectures, manuscripts, and publications are a substantial portion of this collection. Correspondence, reports, and meeting minutes relating to the University of Massachusetts Medical Center and the Board of Trustees of
the University of Massachusetts are also included. An extensive part of this collection is material related to Dr. Wheeler’s work in medical humanism and end-of-life care issues. Notes, drafts, and background material for the Centennial Shattuck Lecture given by Dr. Wheeler are included as well as correspondence, drafts, meeting minutes, reports, and printed material pertaining to his work on end-of-life care issues. In addition to the printed material that comprises the bulk of this collection, there are photographs, slides, negatives, videotapes, audiocassettes, computer disks, an oral history, and artifacts. Also included are personal documents, mementos, and correspondence.

Series and Subseries in the Collection: The collection is arranged in nine series, three of which have been further arranged in subseries. The content of each subseries is arranged chronologically within topic area or type of contents and is loosely based on Dr. Wheeler’s original arrangement. The series and subseries of the collection are as follows:

Series I.  Biographical/Personal, 1961 – 2009: (Box 1)

Series II.  Professional, 1961 – 2004

- A. University of Massachusetts Medical School, 1965–2003: (Box 2-8)
- B. University Hospital, 1973–1996: (Box 9-11)
- C. Department of Surgery, 1969–2005: (Box 12-18)
- D. University of Massachusetts Medical Center, 1975–2004: (Box 19-21)
- E. University of Massachusetts, 1973–1998: (Box 22)

Series III.  Medical Humanism, 1984 - 2006

- B. Medical Humanism, 1989 – 1991: (Box 32-32A)
- C. Humanities in Medicine, 1992 – 2003: (Box 33)

Series IV.  Correspondence, 1971 – 1998: (Box 34)

Series VI.  Audiovisual

- A. Photographs: (Box 37-39)
- B. Slides: (Box 40)
- C. Negatives: (Box 41)
- D. Videotape: (Box 42)
- E. Audio Cassette: (Box 43)
- F. Compact Disc (CD)/ Digital Video Disc (DVD)/ Floppy Disk:
  (Box 44)

Series VII.  Oral History (Box 44A)

Series VIII.  Artifacts: (Box 45-46)

Series IX.  Books

Series I:  Biographical / Personal, 1961 – 2009: (Box 1)

Scope and Content: This series contains personal papers such as correspondence, mementos,
receipts, curriculum vitae, legal documents, and printed material.

**Box 1: Folders 1 – 11**

2. Curriculum Vitae
3. Programs: Harvard Alumni Association; Boylston Medical Society; Worcester Fire Society, Peter Bent Brigham Hospital, SCARWAF Choraliers
7. Correspondence: 1967 – 1999
    Peter Bent Brigham Surgical Residency Program: 1946-1976
    Postcards

**Series II: Professional, 1961 - 2005**

*Scope and Content:* This series is arranged in five subseries and comprises materials created during Dr. Wheeler’s professional career as a surgeon, educator, administrator, and inventor. It documents his work with the University of Massachusetts Medical School and the affiliated University Hospital, the Department of Surgery, University of Massachusetts Medical Center, and the University of Massachusetts. Included in this series are correspondence, documents, printed material, newspaper clippings, lectures, notes, meeting minutes, and reports.

**Series II – A: University of Massachusetts Medical School, 1965 – 2003:** (Box 2-8)

*Scope and Content:* This subseries contains architectural drawings and blueprints, planning documents, correspondence, meeting minutes, by-laws, curricula vitae, catalogs, newsletters, and newspaper clippings pertaining to the early history of the University of Massachusetts Medical School.

**Box 2: Folders 1 – 33**

8. Planning: January – February 1975
9. Planning: March – April 1975
11. Planning: July – October 1975
   Newspaper Clipping: 1975
   Curriculum Proposal: 5/1966
   Architects' Report: 3/1966
   Travel Voucher: 1967; Journal Articles: 1965 -1966
28. Planning: Consultant Agreement
   Tentative Plans – Building & Faculty; Correspondence: 1964 - 1966
32. Animal Laboratory: Personnel: Access Restricted

Box 3: Folders 1 – 31
1. Planning: Faculty, Group Practice, Hospital, Animal Lab, Family Practice: 1971-1977
4. Employee Health: 1975
5. Regional Manpower: 1975
7. Committee on Development of the Worcester Campus: Plan: 1972
8. Committee on Development of the Worcester Campus: Subcommittee on Resident, Staff Education: Report: 1972
10. Subcommittee on Allocation of Resources: meeting: 10/1972
12. Educational Policy Committee: Meeting Minutes, Correspondence: 1973 – 1974
15. Educational Policy Committee: 1994
17. Group Practice Plan: Disposition of Fees: Correspondence: 1969 – 1971
18. Group Practice Plan: Disposition of Fees: Correspondence: 1971 – 1973
20. Group Practice Plan: Overview: 10/1973
23. Group Practice Plan: 1974
31. Group Practice Plan: 1975

Box 4: Folders 1 – 36
5. Group Practice Plan: Advisory Board: Meeting: 1996
8. Group Practice Plan: Guidelines: Correspondence: 1996
15. Faculty: 1974: Access Restricted
28. State Maintenance Funds: 1974
29. Budget Committee: Correspondence; Meeting Minutes: 10/1974 – 12/1974
30. Budget Committee: Correspondence; Meeting Minutes: 1974 – 1975
31. Budget: FY 1975; Committee Meetings; Correspondence- 1975; FY 1976 Budget Request
32. Maintenance Budget/ FY 1975; Correspondence; Lamar Soutter statement to House, Ways, and Means: 1974
33. Budget: FY 1976; Correspondence: 2/1974
34. Budget Issues: Correspondence: 1974 – 1976
35. Budget Request for Teaching Hospital: FY 1975
36. House Bill #2909: Creation of Department of Health Systems Regulations: 1975

Box 5: Folders 1 – 21
2. Disposition of Fees: Committee Meetings: 1971 – 1974
3. Disposition of Fees: Third Party: 1973
5. Financial: 1994
6. Executive Committee of Faculty: 1975
15. Executive Committee of Faculty: Meeting Minutes & Agendas: 1976
16. Faculty Appointments: n.d.

Box 6: Folders 1 – 41
1. Liaison Committee on Medical Education: 1995
2. Liaison Committee on Medical Education: Accreditation Review: 1995
3. Graduate Medical Education: International Medical Graduates: Correspondence: 1995
4. Office of Medical Education: Correspondence: 1996
6. Faculty Activities, Reports, Evaluation Forms: 1993
7. Continuing Medical Education: Faculty – Promotion & Correspondence: 1996: Access Restricted
8. Faculty Correspondence: 4/1981
12. Stress Reduction and Relaxation Program: Workbook
13. Center for Mindfulness in Medicine, Health Care & Society: Jon Kabat-Zinn: Draft and articles: 1995
14. Center for Mindfulness in Medicine, Health Care & Society: Correspondence & Notes: 1995
15. Center for Mindfulness in Medicine, Health Care & Society: Planning & Proposal: 1995
16. Center for Mindfulness in Medicine, Health Care & Society: Readings
21. John Meyers Primary Care Institute: Executive Summary: 1994
23. John Meyers Primary Care Institute: Correspondence: 1998

20. Board of Trustees: Budget Committee: 4/1975
22. Board of Trustees: Executive Committee: Meetings & Correspondence: 1975

Series III: Medical Humanism, 1984 - 2006

Scope and Content: This series is arranged in three subseries and is composed of materials that illustrate Dr. Wheeler’s interest in medical humanism, end-of-life care issues, and the humanities in medicine, including his role in the creation of the Humanities in Medicine collection at the Lamar Soutter Library, a collaborative effort with the Worcester Medical Library. The materials include correspondence, journal articles, reports, meeting minutes, printed material, patient information, planning documents, proposals, grant information, newspaper clippings, course materials, and lectures.

Scope and Content: This subseries contains materials pertaining to Dr. Wheeler’s work with end-of-life care issues and includes correspondence, journal articles, reports, patient information, meeting minutes, printed material, planning documents, proposals, grant information, newspaper clippings, course materials, and lectures. The material in folders whose main content is correspondence has been arranged chronologically and the names of correspondents have been listed in the order in which they appear.

Box 23: Folders 1 - 36

   (videotapes (2) available in collection)
11. Ethics course materials: 1997

**Series III- C: Humanities in Medicine, 1992 – 2003: (Box 33)**

**Scope and Content:** This subseries contains correspondence and documents related to Dr. Wheeler’s interest in medical humanities and his role in creating the Humanities in Medicine collection, a collaborative effort between the Worcester Medical Library and the Lamar Soutter Library formed to promote reading about the humanist aspects of medicine. This material also sheds light on the origins of the Humanities in Medicine Subcommittee of the Medical School Library Committee.

**Box 33: Folders 1 – 5**

5. Correspondence, Reading List: 2003

**Series IV: Correspondence, 1971 – 1998: (Box 34)**

**Scope and Content:** This series contains correspondence not elsewhere classified within Dr. Wheeler’s original filing arrangement. The correspondents include students, colleagues, and friends. The materials are arranged chronologically and the names of correspondents, when known, have been listed in the order of their appearance within each folder. Two folders contain material Dr. Wheeler considered confidential and have been labeled as such.

**Box 34: Folders 1 – 11**

1. 1971 – 1975
Goldwyn, Robert L., M.D.
Soutter, Lamar, M.D.
Corson, J. Mackie, M.D.
Von Lichtenberg, Franz, M.D.

Gray, Sandra
Holmes, C.L.
Ames, Oliver
Seidman, Joel
Sandor, András
Soller, Babs
Benedict, Mary
Curtis, Carol
Clay, Marjorie

Scope and Content: This series contains background materials, research notes, drafts, and final copies of manuscripts and publications of which Dr. Wheeler was author or contributor. The topics are primarily the non-invasive diagnosis and prevention of venous disorders and vascular disease.

Box 35: Folders 1 – 33

1. “Obtaining Pre-Operative Systems Review on Surgical Patients by Computer”-1971
4. “Buerger’s Disease”: Reference material
5. “Buerger’s Disease”: Reference material
6. “Buerger’s Disease”: Reference material
15. Non-Invasive Diagnosis of Peripheral Vascular Disease: Correspondence: 1981-1984
17. Practical Non-Invasive Vascular Diagnosis: Correspondence: 1984-1985
18. Impedance Phlebography: 1971

27. “Impedance Plethysmography: Correlation with Contrast Venography”: 1976

**Box 36: Folders 1-27**

2. “Can Non-Invasive Tests Be Used as the Basis for Treatment of Deep Vein Thrombosis?”: n.d.

27. “Can noninvasive tests be used as the basis for treatment of deep vein thrombosis?” with Anderson, Frederick A., Jr., chapter in *Noninvasive Diagnostic Techniques in Vascular Disease*, third edition, 1985

**Series VI: Audiovisual**

*Scope and Content:* This series is arranged in six subseries and includes photographs, slides, negatives, videotapes, audio cassettes, and computer formats (compact discs, digital video discs, floppy discs). The materials were created during Dr. Wheeler’s professional career and also document his interest in medical humanism and end-of-life care issues.

**Series VI – A: Photographs:** (Box 37-39)

*Scope and Content:* The bulk of this subseries contains black and white as well as color photographs documenting people and events associated with Dr. Wheeler’s career at the University
of Massachusetts Medical School, University Hospital, and the Department of Surgery. There are also photographs related to his interest in end-of-life care issues and medical humanism. The photographs have been arranged by topic then chronologically within a topic area. Names and dates of people and events in the photographs are provided when known. Also included in this subseries is a photograph album/scrapbook created for and presented to Dr. Wheeler at Christmas 1980.

Series VI – B: Slides: (Box 40)

Scope and Content: This subseries contains slides used in lectures and presentations by Dr. Wheeler on various topics including the University of Massachusetts Medical School, Lamar Soutter, surgery, end-of-life care, and the collaboration of medicine and technology. Slides have been placed in the slide album and arranged in the same groupings in which they were originally arranged. For example, slides within a particular slide carousel, envelope, or slide container have been kept together. The title of each grouping is indicated when known. The arrangement and content of the slides within the slide album are given.

Box 40 - Slide Album: Pages 1 – 40

Page 1: Topic and Number of Slides: Center for Advanced Clinical Technology-Presentation 1995: from Box 13, Folder 21- (10) slides

Note: The original number shown on the slide mount is listed in the slide content description if known.
