Outline

• The Partners in Information Access for the Public Health Workforce Collaboration

• PHPartners.org: Portal to Public Health Information
  – Target audience and link selection
  – Public health topic pages
  – General public health resources

• Healthy People 2020 Structured Evidence Queries

• Tools and tips for using PHPartners.org
  – Search tips
  – Keeping up with what’s new in the field
  – Access from mobile devices
Public Health Partners

• Partners in Information Access for the Public Health Workforce (PHPPartners)
  – Public Health Organizations
  – Federal Government Agencies
  – Health Science Libraries

• Founded in 1997

• Mission: To help the public health workforce find and use information effectively to improve and protect the public’s health.

• Website: PHPartners.org
Partners in Information Access for the Public Health Workforce

- Agency for Healthcare Research and Quality (AHRQ)
- American Public Health Association (APHA)
- Association of Schools & Programs of Public Health (ASPPH)
- Association of State and Territorial Health Officials (ASTHO)
- Centers for Disease Control and Prevention (CDC)

PHPartners.org

- One-stop portal for public health information
- Components include:
  - Current news
  - PH topic pages
  - Data, tools & statistics
  - Conferences/webinars
  - Jobs & careers
  - Reports, guidelines and more!
- Updated daily
- Quality guidelines with strict selection criteria
One-stop portal for public health information

Components include:
- Current news
- PH topic pages
- Data, tools & statistics
- Conferences/webinars
- Jobs & careers
- Reports, guidelines and more!

Updated daily

Quality guidelines with strict selection criteria
PHPPartners.org Target Audience: the Public Health Workforce

• Public health practitioners at local, state & federal levels
  • Managers and program directors
  • Health educators
  • Public health nurses
  • Environmental health specialists
  • Preventive medicine specialists
  • Community health workers
  • Emergency preparedness and disaster responders
• Librarians and health information specialists
• Health policy makers, legislators, public officials
• Researchers and students
Selection of Resources

• **Authority** – credible author or producer
• **Appropriateness** – targeted to the public health workforce
• **Quality** – accurate, well-organized content
• **Access & Reliability** - links are maintained
• **Currency** – up-to-date information
• **Purpose** – aims clearly identified
• **Sponsorship** – funding organizations identified
We Encourage Link Suggestions

Suggest a Link

We particularly invite suggestions for links to government and non-profit organizations that serve as gateways to information on a variety of topics related to public health. When suggesting a new link from PHPpartners.org to another site, please consider that site's enduring value and the frequency with which it is updated. PHPpartners.org does not normally include links to commercial products or services. PHPpartners.org acknowledges that a site with valuable information may also contain information on commercial products or services, however, acceptance of a link does not imply that PHPpartners.org endorses any commercial product or service contained in the link. To submit a link for consideration please complete the following:

- **Site title:**
- **URL:**
- **Description of the site:**
  You may enter up to 1500 characters. [1500 characters left]
- **Sponsoring Organization:**
- **Main Category:** [Bioterrorism]
- **Your name:**
- **Your E-mail:**
- **Does the site offer any product or service for sale?**
  - [ ] No
  - [ ] Yes

You must solve the equation before submitting the form.

8 - 1 = 

[Submit]  [Clear form]

**USDA Report: Climate Change Likely to Impede Progress on Global Food Security** - 02-DEC-2015
A new report released by the U.S. Department of Agriculture (USDA) that examines global food security and its implications for the United States says climate change is likely to impede progress on reducing undernourishment around the world in the decades to come.

**FDA Takes Action to Protect Consumers from Potentially Dangerous Dietary Supplements** - 18-NOV-2015
The U.S. Food and Drug Administration, in partnership with other government agencies, has announced the results of a yearlong sweep of dietary supplements to identify potentially unsafe or tainted supplements.

**USDA Awards $34.3 Million to Support Communities’ Local Foods Infrastructure, Increase Access to Fruits and Vegetables** - 05-OCT-2015
Agriculture Secretary Tom Vilsack has helped to kick off the nation’s harvest season by announcing nearly $35 million in new funding through four grant programs to support local and regional food systems, including farmers markets.

Associations and Organizations

**Federal**

**CDC Division of Nutrition, Physical Activity and Obesity**
The mission of CDC’s Division of Nutrition, Physical Activity and Obesity is to lead strategic public health efforts to prevent and control obesity, chronic disease, and other health conditions through regular physical activity and good nutrition. (Centers for Disease Control and Prevention (CDC))

**FDA Food Safety**
Food safety resources from the FDA. (Food and Drug Administration (FDA))

**Food and Nutrition Service (FNS)**
FNS increases food security and reduces hunger in partnership with cooperating organizations by providing children and low-income people access to food, a healthy diet, and nutrition education in a manner that supports American agriculture and inspires public confidence. (United States Department of Agriculture (USDA))

**NIH Office of Nutrition Research**
The Division of Nutrition Research Coordination (DNRC) advises the National Institutes of Health (NIH) Director on nutrition research issues and works with the NIH organizational components to coordinate nutrition research and research training initiatives. (National Institute of Diabetes and Digestive and Kidney Diseases, NIH (NIDDK))

**Office of Dietary Supplements (ODS)**
The mission of ODS is to strengthen knowledge and understanding of dietary supplements by evaluating scientific information, stimulating and supporting research, disseminating research results, and educating the public to foster an enhanced quality of life and health for the U.S. population. (National Institutes of Health (NIH))

USDA Report: Climate Change Likely to Impede Progress on Global Food Security - 02-DEC-2015

Data and Statistics

**Eating and Health Module (ATUS)**
The Eating & Health Module of the American Time Use Survey collects data to analyze relationships among time use patterns and eating patterns, nutrition, and obesity; food and nutrition assistance programs; and grocery shopping and meal preparation. (United States Department of Agriculture (USDA))

**FAOSTAT**
Provides time-series and cross-sectional data relating to food and agriculture for over 200 countries. (Food and Agriculture Organization of the United Nations (FAO))

**Food Access Research Atlas**
The Food Access Research Atlas maps and provides selected food access indicators for census tracts. (Economic Research Service, USDA (ERS))

**Food Environment Atlas**
Provides a spatial overview of a community's ability and success in accessing healthy food. Users can assemble county-level statistics on food choices, health and well-being, and community characteristics. (Economic Research Service, USDA (ERS))

**FRAC National and State Program Data**
FRAC’s Profiles of Hunger, Poverty, and Federal Nutrition Programs - available for every state and for the nation as a whole - are designed to provide basic data to help states measure how they are doing in the effort to get key public nutrition programs to meet the needs of hungry people and improve the health and economic security of low-income families. (Food Research and Action Center (FRAC) USA)

**Household Food Acquisition and Purchase Survey (FoodAPS)**
A nationally representative survey of household food purchases and acquisitions. (Economic Research Service, USDA (ERS))

**National Health and Nutrition Examination Survey (NHANES)**
Data on the health and nutritional status of the U.S. population. (National Center for Health Statistics, CDC (NCHS))

**Nutrition, Physical Activity and Obesity: Data, Trends and Maps**
Online tool to search for and view indicators related to nutrition, physical activity, and obesity. (Centers for Disease Control and Prevention (CDC))

**Pediatric and Pregnancy Nutrition Surveillance System**
The Council of State and Territorial Epidemiologists has released the Healthcare-Associated Infections (HAI) Data Analysis and Presentation Standardization Toolkit, which defines best practices, recommended methods, and example data tables for state and local health department HAI programs to present HAI data to both technical and consumer audiences.

Big Cities Health Coalition Releases Big Cities Health Inventory - 19-NOV-2015
The Big Cities Health Coalition, an independent initiative of NACCHO, has released an interactive data platform and report that examines data for 26 cities across 34 health indicators. (National Association of County and City Health Officials (NACCHO))

The National Center for Health Statistics (NCHS) has launched a new Vital Statistics Rapid Release (VSRR) program, which provides access to timely vital statistics for public health surveillance on a quarterly basis. In the recent pilot release of the Quarterly Provisional Estimates, NCHS presents data on death rates for seven selected causes of death during 2013 through the first quarter of 2015.

ICD-10 Master Mapping Reference Table Available to Assist with Public Health Surveillance Activities - 13-OCT-2015
The upcoming ICD-9/ICD-10 transition will have a significant impact on public health surveillance systems and activities that involve coded clinical data. The CDC has worked with clinicians and public health professionals to develop ICD-9 to ICD-10 translations based on conceptual mapping for 140 syndromes arranged into 16 broader syndrome groupings.

HHS Publishes a Roadmap to Advance Health Information Sharing and Transform Care - 07-OCT-2015
The Department of Health and Human Services’ Office of the National Coordinator for Health Information Technology (ONC) has released the final Connecting Health and Care for the Nation: A Shared Nationwide Interoperability Roadmap.

Education and Training News

*Equity, Diversity, and Inclusion Training Institute* - 17-NOV-2015
December 16, 2015, Washington, DC. This one-day training will develop your knowledge and skills to apply equity, diversity, and inclusion, professionally and personally. Participants in the training will leave prepared to decide and act more equitably through policies, programs, and practices. This interactive and dynamic training is designed for professionals from all disciplines, sectors, and career stages. Whether you are new to equity, diversity, and inclusion or already addressing equity in your work, this training will give you knowledge, skills, and tools to make a greater impact. (CommonHealth ACTION)

*TRAIN Reaches Million Learner Milestone* - 29-OCT-2015
TRAIN, the nation’s premier learning network for professionals who protect the public’s health, just reached one million learners. Launched in 2003 by the Public Health Foundation (PHF), the TRAIN learning network provides health professionals with access to thousands of free trainings in more than 60 subject areas.

Continuing Education and Training Opportunities

*AgriSafe Training*
Training and resources on current research and activities in agricultural safety and health. (AgriSafe Network)

*AMIA 10x10 Courses*
Training program conducted across the United States by AMIA in collaboration with key academic partners in the biomedical and health informatics education community. The content covers areas such as electronic and personal health records, health information exchange, standards and terminology, and health care quality and error prevention. (American Medical Informatics Association (AMIA))

*APHA Integrated Continuing Education Program*
Portal to APHA’s education, career and professional development activities. APHA’s goal is to provide access to opportunities to earn continuing education (CE) credit online; view webinars on relevant topics; and link to other resources, meetings and activities of interest. (American Public Health Association (APHA))

*Area Health Education Centers Directory*
Area Health Education Centers (AHECs) provide continuing education based on the recent literature. Many AHECs also have libraries or resource centers.

AMIA 10x10 Courses

Training program conducted across the United States by AMIA in collaboration with key academic partners in the biomedical and health informatics education community. The content covers areas such as electronic and personal health records, health information exchange, standards and terminology, and health care quality and error prevention. (American Medical Informatics Association (AMIA))

APHA Integrated Continuing Education Program

Portal to APHA’s education, career and professional development activities. APHA’s goal is to provide access to opportunities to earn continuing education (CE) credit online; view webinars on relevant topics; and link to other resources, meetings and activities of interest. (American Public Health Association (APHA))

Area Health Education Centers Directory

Area Health Education Centers (AHECs) provide continuing education based on the recent literature. Many AHECs also have libraries or resource centers.
Links to educational events and resources, including opportunities for distance learning.

Education and Training News

**Equity, Diversity, and Inclusion Training Institute** - 17-NOV-2015
December 16, 2015, Washington, DC. This one-day training will develop your knowledge and skills to apply equity, diversity, and inclusion, professionally and personally. Participants in the training will leave prepared to decide and act more equitably through policies, programs, and practices. This interactive and dynamic training is designed for professionals from all disciplines, sectors, and career stages. Whether you are new to equity, diversity, and inclusion or already addressing equity in your work, this training will give you knowledge, skills, and tools to make a greater impact. (CommonHealth ACTION)

**TRAIN Reaches Million Learner Milestone** - 29-OCT-2015
TRAIN, the nation’s premier learning network for professionals who protect the public’s health, just reached one million learners. Launched in 2003 by the Public Health Foundation (PHF), the TRAIN learning network provides health professionals with access to thousands of free trainings in more than 60 subject areas.

Continuing Education and Training Opportunities

**AgriSafe Training**
Training and resources on current research and activities in agricultural safety and health. (AgriSafe Network)

Public Health Information and Data Tutorial

The Public Health Information and Data Tutorial provides instruction for members of the public health workforce on issues related to information access and management. There are no copyright restrictions on the contents of this tutorial and users are free to adapt or duplicate any portion.

The contributors and authors of this tutorial's content represent city, county, state and federal agencies. They establish clear connections to recognized competencies in public health and provide examples representing much of the diversity inherent in the practice of public health.

Learning objectives:

- Stay informed of developments and events related to public health;
- Find reliable and authoritative consumer-oriented materials to support health education;
- Retrieve statistical information and access data sets relevant to public health; and
- Retrieve and evaluate information in support of evidence-based practice.

This tutorial is based on Public Health Information and Data: A Training Manual. The manual is no longer maintained and is now out-of-date. The manual has been archived and is available upon request using the Contact Us form.

For additional training opportunities, contact the National Network of Libraries of Medicine at 1-800-338-7657 or http://nnlm.gov.

Education and Training News

Equity, Diversity, and Inclusion Training Institute.
December 16, 2015, Washington, DC. This one-day event will be held in person. In addition, a dynamic training is designed for professionals who are unable to attend in person. The event will provide a comprehensive overview of equity, diversity, and inclusion in the workplace.

TRAIN Reaches Million Learner Milestone
- 29-Credit Program
- TRAIN, the nation's premier learning network for public health professionals, has reached the milestone of one million learners. TRAIN offers a wide range of courses and programs, including continuing education and professional development opportunities.

Continuing Education and Training Opportunities

AgriSafe Training
- Training and resources on current research and agriculture-related topics

AMIA 10x10 Courses
- Training program conducted across the United States that offers a wide range of courses and programs, including continuing education and professional development opportunities.

APHA Integrated Continuing Education Program
- Portal to APHA's education, career, and professional development, including online courses, webinars, and articles.

Area Health Education Centers Directory

Upcoming Webinars

Implementing Successful QI: Lessons Learned Featuring Oregon Health Authority
December 8, 2015, 1:00-2:00 PM EST. Webinar on implementing successful quality improvement (QI) featuring the Oregon Health Authority. (Public Health Quality Improvement Exchange (PHQIX))

PHPartners.org: Single Point Access to Credible Public Health Information
December 9, 2015, 11:00 AM - 12:00 PM ET. This webinar will provide an overview of public health information resources available from the public health web portal, PHPartners.org, including the Healthy People 2020 Structured Evidence Queries (pre-formulated searches of PubMed) (National Network of Libraries of Medicine (NN/LM))

Pathways to Prevention Workshop: Total Worker Health - What’s Work Got to Do With It?
December 9-10, 2015, Bethesda, MD. The workshop will evaluate the current state of knowledge on integrated approaches to worker safety, health, and well-being and will plot the direction for future research. The workshop will also be available via videocast. (National Institutes of Health (NIH))

Empowering People to Manage Their Diabetes: A Healthy People 2020 Spotlight on Health Webinar
December 10, 2015, 12:30-2:00 PM ET. Join Healthy People 2020 and the Diabetes Advocacy Alliance for a webinar highlighting evidence-based resources and strategies focused on diabetes self-management education. (Office of Disease Prevention and Health Promotion, HHS (ODPHP))

Saving the Lives of Women, Children and Adolescents in the U.S. and Abroad
December 10, 2015, 1:00-2:30 PM EST. Discussion about how we can catalyze change for women, children and adolescents in the United States and worldwide. (American Public Health Association (APHA))

CDC Grand Rounds: Strengthening a Culture of Laboratory Safety
December 15, 2015, 1:00 PM ET. In this session of Public Health Grand Rounds, a panel will discuss how standards of laboratory safety have improved over the years, what has been learned from past incidents, and how establishing safety protocols and training systems can lead to an overall culture of workplace safety, resulting in continued public trust in science and recommendations. (Centers for Disease Control and Prevention (CDC))

County and Local Health Data

Area Resource File (ARF)
The ARF database contains more than 6,000 variables for each of the nation’s counties and provides information on health facilities, health professions, measures of resource scarcity, health status, economic activity, health training programs, and socioeconomic and environmental characteristics. (Health Resources and Services Administration (HRSA))

Community Health Needs Assessment (CHNA)
Web-based platform designed to assist hospitals, non-profit organizations, state and local health departments, and other organizations seeking to identify and potential disparities in their communities. (Community Commons USA, Institute for People, Place & Possibility (IP3))

Community Health Status Indicators (CHSI)
Interactive web application that produces health profiles for all counties in the United States. Each profile includes key indicators of health outcomes, which describe the population health status of a county and factors that have the potential to influence health outcomes, such as health care access and quality, behaviors, social factors, and the physical environment. (Centers for Disease Control and Prevention (CDC))

County Diabetes Data
Atlas of county-level diabetes data and trends. (Centers for Disease Control and Prevention (CDC))

County Health Calculator
Tool for advocates and policy makers to understand and demonstrate how education and income affect health. (Virginia Commonwealth University Center on Human Needs)

County Health Rankings & Roadmaps
Provides county-by-county health rankings for each of the 50 states and Washington D.C., explanations of each health factor, and actionable strategies to improve the health of communities across the nation. (Robert Wood Johnson Foundation (RWJF), University of Wisconsin)

Health Indicators Warehouse (HIW)
The Health Indicators Warehouse serves as the data hub for the HHS Community Health Data Initiative by providing a single source for national, state, and community health indicators. (National Center for Health Statistics, CDC (NCHS))

Interactive Atlas of Heart Disease and Stroke
An online mapping tool that documents geographic disparities in cardiovascular diseases and their risk factors at the local level. The Atlas allows users to view county-level maps of heart disease and stroke and include overlays of congressional boundaries and health care facility locations. In addition, county-level of poverty rates, education levels, the food environment, access to health care, and other social factors are available. (Centers for Disease Control and Prevention (CDC))
