Collaborative Cross-Institutional Faculty/Librarian Model for Teaching Evidence-Based Practice: A Future Fusion Recipe?

Irena Bond¹, MSLIS; Len Levin², MS LIS, MA, AHIP, Alice Gardner¹, PhD; Monina Lahoz¹, PhD

¹Massachusetts College of Pharmacy and Health Sciences-Worcester (MCPHS-W)

²University of Massachusetts Medical School –Worcester (UMMS)

OBJECTIVES

- To describe the development of a novel cross-institutional collaboration between librarians and faculty from MCPHS-W and UMMS school. Specifically it focuses on the librarians' active role in bringing shared cross-institutional and cross-disciplinary expertise to the table.
- To highlight the value of building strategic relationships between faculty and librarians across peer institutions
- To provide a roadmap for starting such collaborations

BACKGROUND

EBP Steps: Ask Focused Questions, Access the best evidence, Appraise the evidence, Apply it, Assess the process (1)

COLLABORATION DEVELOPMENT ROADMAP

Common Goal: To jointly advance EBP teaching at each institution

Chronology (2002-Present):

- Pre-existing Relationship and EBP experience
 - between the MCPHS-W and UMMS librarians through professional organizations
 - between librarians and faculty (disciplines pharmacology and pharmacy administration) at each campus
 - Co-development and teaching an EBP elective course
 - Joint scholarship
- Informal discussions between librarians identifies common interests
- Formal meeting between librarians outlines goals of collaboration
- Preliminary discussions with faculty at each institution outlines collaborative goals
- Librarians consult on strategies to integrate the library into the EBP curricula of their schools
- Campus visits and class observations on EBP classes at each institution by the team
- EBP instructional material development by the team members
- Collaborative course planning, teaching and co-facilitating an EBP elective at MCPHS (See below)
- Regular meetings and e-mail communications to coordinate tasks

EBP ENHANCEMENTS

The Cross-institutional collaborative approach:

- Maximizes EBP efforts at each institution
- Fuses inter- and intra-institutional EBP expertise
- Strengthens EBM Step 1 (Ask) and Step 2 (Access)
- Integrates different viewpoints into EBP teaching through a multi-disciplinary model
- Builds-in flexible and effective small group facilitation and student feedback
- Transforms EBP instruction from campus based to a broader cross-institutional initiative

COLLABORATIVE BENEFITS

- Enhancement of EBP teaching at both institutions
- Joint course development
- Joint library curriculum integration
- Collaboration strategizes librarians and faculty as EBP experts beyond their institutions
- Collaborators expand their professional networks
- Collaboration reduces EBP development burden
- Collaborators develop professionally through collaborative scholarship

FUTURE DIRECTIONS

- Continued collaborative development and improvement of MCPHS EBP course
- Joint design of EBP online module for UMMS 2nd Year Pharmacology course
- Validation of EBM Search Rubric

INITIATIVES

- Joint Development of **EBP Educational Modules on Harm** for UMMS 3rd year Medical Students
 - Joint development of primer on understanding harm from medical treatments (Fig. 1)
 - Joint development of a psychopharmacology case study (Fig. 2)

Joint planning, teaching, and facilitating of an MCPHS elective for second year *Doctor of Pharmacy* students called: **Evidence-Based Pharmacology (EBP): A Problem-Based Approach**

- EBM Search Assessment Tool (Fig. 3)
- EBP Step 2: Track Down the Best Evidence worksheet
- EBP Step 2: Track Down the Best Evidence grading sheet
- EBP Attitude Test (Fig. 4)
- Assessment of student's work
