Empowering Health Information Outreach in New England

The Network

Empowers their users at with quality health information at the point of care and need at their institutions.

Full Member Libraries provide information support to health care providers, researchers, students, and their patients. Full members use DOCLINE for their users document delivery needs.

Affiliate Member Libraries provide information support to students, patients, and the public.

The numbers (2006-present)

NN/LM NER staff training activities 320
Number of attendees at activities 3,442
NN/LM NER funded outreach activities 93
Total amount for funded outreach projects ≈$650,000

Training

Provides in-person and e-learning educational opportunities on National Library of Medicine resources and services and other hot topics for network member libraries, health professionals, community based organizations and consumers.

Examples of programs offered:
- Emergency Preparedness
- Going Green with the NLM
- Customized PubMed and DOCLINE presentations
- Consumer Health Information
- P4I Partners.org
- Senior Health
- Grant and Proposal Writing and much more!

Public Health

From the Partners in Information Access for the Public Health Workforce, a collaboration of U.S. governmental agencies, public health organizations, and health sciences libraries.

PHPartners.org provides access to resources from government agencies, professional and research organizations, libraries and educational institutions.

The Partners mission is to help the public health workforce find and use information effectively to improve and protect the public’s health.

Outreach

Connects medical libraries, public libraries, health professionals, public health workers and community based organizations in the common goal of health promotion.

Exhibiting brings resources to users like:
- American Academy of Family Physicians
- Case Management Society of New England
- National Association of School Nurses
- Connecticut Science Teachers Association
- New England Association of Fire Chiefs

Funding

Healthy Community Coalitions

Mobile Health Unit

Reaching Underserved Populations

Member Libraries reach new populations with projects like:
- Connecting the Somali population of Lewiston, Maine with health services at Central Maine Medical Center
- Providing a library and science based curriculum to middle school students in Worcester, MA
- Enhancing SPIRAL, the Selected Patient Information Resources in Asian Languages web site, that provides native language health information to communities served by Tufts University and the world.

Goals:
- Promote National Library of Medicine online health information to librarians, health professionals and consumers
- Strengthen network libraries and provide outreach to public libraries, public health and community based organizations
- Facilitate outreach work of member libraries
- Foster collaborative programming for specialized populations

The National Library of Medicine

Resources in Asian Languages web site, that provides native language health information to communities served by Tufts University and the world.
