e-Science Symposium
Thursday, April 6, 2017
Key Contributors

• JC Nelson
  • Upper Midwest Environmental Sciences Center, US Geological Survey (USGS), La Crosse, WI

• Tamar Norkin
  • Core Science Analytics, Synthesis & Libraries, USGS, Denver, CO

• David Bassendine
  • Blue Dot Lab, Atlanta, GA

• John Faundeen
  • Earth Resources Observation and Science (EROS) Center, USGS, Sioux Falls, SD

• Amber Budden
  • Data Observation Network for Earth (DataONE), Albuquerque, NM

• Erin Robinson
  • Earth Science Information Partners (ESIP), Boulder, CO

• Cassandra Ladino
  • Eastern Geographic Science Center, USGS, Reston, VA
Rationale for Creating a DMT Clearinghouse

Started with discussions within ESIP Data Stewardship’s DMT Working Group from ESIP Summer 2015 about what researchers need.

- “What training materials are out there and where are they?”
- “Which ones make the most sense for me, given my domain and timeframe?”
- “I want training materials that are associated with the framework that my colleagues are using so that we can use the same language!”
We Found a Funding Opportunity!

- Put in a proposal in late 2015 to the USGS Community for Data Integration (CDI) for seed funding along with:
  - USGS
  - DataONE
  - ESIP

- Process for approval:
  - CDI Voting – We received many votes and were invited to submit a proposal.
  - Proposal was funded and project started in April 2016.

- Special thanks to our web developer, Drupal experts, and our coordinating committee.
Phase 1 Completed: The Initial Launch of DMT Clearinghouse!

• Submission Process

• Using “Advertising your data: Agency requirements for submitting metadata” as the case study.
Advertising your data: Agency requirements for submitting metadata

Submitted by superadmin on Thu, 2012-11-08 19:37

Overview:
This training module is part of the Federation of Earth Science Information Partners (or ESIP Federation's) Data Management for Scientists Short Course. The subject of this module is "Agency Requirements for Submitting Metadata." This module was authored by Nancy Hoebeleinrich from Knowledge Maps LLC. Besides the ESIP Federation, sponsors of this Data Management for Scientists Short Course are the Data Conservancy and the United States National Oceanic and Atmospheric Administration (NOAA).

As an overview, we will touch the following topics in this module:
- How the agencies persuade you to make metadata available about your data by submission or publication. Metadata can be defined as descriptive information about your data of the type that is usually found in search portals.
- Specifically, we will be talking about the National Science Foundation (NSF)'s required Data Management Plan that motivates you to make metadata available.
- The National Aeronautics and Space Administration (NASA)'s Data and Information Policy that encourages you to make metadata available.
- The National Oceanic and Atmospheric Administration (NOAA)'s Administrative Order 212-15 that directs you to make metadata available.
- How the practice of submitting or publishing metadata is promulgated by the E-Government Act of 2002 (44 U.S.C. 3522).

Other topics we'll discuss include the timeliness of the metadata submission, and some dissemination tools and techniques that can help you make your metadata available to the public.

Activity #1

• Providing Required Information

Title *

URL - the landing page for the learning resource
https://oedbreezecr.usgs.gov/dm-value/

Author(s) - the individual or organization credited with creating the learning resource.

Authoring Person(s) Name

Add new person

Authoring Organization(s) Name

Add new organization

Access Cost *

No fee

Fee

Contact - person or organization to contact in case of questions about the resource's content or status.

Contact Person(s)

Add new person

Contact Organization(s)

Add new organization
Activity #2

• Providing Recommended Information: About the Learning Resource
Activity #2 - Continued

• Providing Recommended Information: About the Learning Resource
Activity #3

• Providing Recommended Information: Other Names Associated with the Learning Resource
### Activity #4

**Providing Recommended Information: Educational Context**

<table>
<thead>
<tr>
<th>Framework - A community-based organization plan or set of steps for education or training</th>
</tr>
</thead>
<tbody>
<tr>
<td>Click to select an option</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Target Audience - intended audience for which the learning resource was created</th>
</tr>
</thead>
<tbody>
<tr>
<td>Click to select first option, click again to select additional options</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Purpose - primary educational reason for which the learning resource was created</th>
</tr>
</thead>
<tbody>
<tr>
<td>Click to select an option</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Intended time to complete - approximate amount of time the average student will take to complete the learning resource</th>
</tr>
</thead>
<tbody>
<tr>
<td>Click to select an option</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Media Type - designation of the form in which the content of the learning resource is represented, e.g., moving image</th>
</tr>
</thead>
<tbody>
<tr>
<td>Click to select an option</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Learning Resource Type - category of the learning resource from the point of view of a professional educator</th>
</tr>
</thead>
<tbody>
<tr>
<td>Click to select an option</td>
</tr>
</tbody>
</table>
Next Steps: Phase 2 for DMT Clearinghouse

• Seeking Funding Opportunities!

• Sample of Key Objectives:
  • Host at least two virtual crowdsourcing events to encourage submissions of learning resources.
  • Improve the moderation workflow to ensure quality and compliance could be met efficiently.
  • Set up Drupal Link Checker module to check automatically the validity of the links included in the resourced.
  • Establish a framework for conducting usability evaluation.
  • Implement new functions and interface/system features based on user feedback.
Summary / Questions?

http://dmtclearinghouse.esipfed.org

- Need ESIP account to submit.
- Help by identifying (and submitting) learning resources.
- Provide feedback on your experiences with the functionality, look and feel of the interface.
- Join us in our usability evaluation and content submission sessions.
- Pass the word!
- Contact:
  - Sophie Hou, hou@ucar.edu
  - Nancy J. Hoebelheinrich, nhoebel@kmotifs.com
  - David Bassendine, david@bluedotlab.org (for ESIP account info)
