Our Ideas

1. Note, team, Laura
   Use n. Solly
   Utilize IE for much of CIST.

   - Community for Conferences, Symposia, etc.
   - collect posters,gray lit.
   - measure/deep stats

   Impact start n post Retreat?

   - Community for Publications
   - collect via PUB/grant no

   - Communities for Projects - model n labs
   - Community for general Center resources - newsletter, reports, etc.

   - other: integrate into education, researcher training

Start "I" May Research Retreat
- Use to work "in" team for matching
- Date to send announcement
- continue annually
Build communities of materials from conferences, symposia, retreats, etc.
2nd Annual Clinical & Translational Science Research Retreat

To participants in the 2nd Annual Clinical and Translational Science Research Retreat,

We want to thank all those who came and participated in the May 20th retreat at the Hoagland Ploomus Center in Shrewsbury. By all accounts, it was an exciting, energizing, and inspiring day for many and certainly a rewarding experience for the planning committee and those who worked tirelessly to make this event a success. Below, we are attaching a summary of the results of the post-conference survey, a photo gallery from the event, and several press pieces generated by the UMass Worcester and Amherst campuses. We hope the connections you made at the retreat carry you forward to new opportunities and collaborations.

Best Regards,

Katherine Luzuriaga, MD and Catarina Klefe, MD, PhD
Co-Chairs, 2nd Annual Clinical and Translational Science Research Retreat

CALL FOR POSTERS

3rd Annual Clinical and Translational Science Research Retreat
May 22, 2012
Hoagland-Pincus Conference Center, Shrewsbury, MA

This is a call for posters to be presented during the 3rd Annual Clinical and Translational Science Research Retreat. The poster session will provide a forum for researchers to showcase their work. While the poster need not describe completed work, it should report on research for which at least preliminary results are available. We especially encourage poster submissions from students, residents, and fellows. Due to overwhelming demand, we have expanded our area to accommodate additional posters this year.

POSTER SUBMISSION INSTRUCTIONS
Poster proposals adhere to the following:
- Submitted as a one-page Word file
- Use 12 pt font and single spacing
- Include:
  a) Title
  b) Full name of Authors
  c) Institutional affiliations
  d) Contact information
  e) An abstract of no more than 300 words

Please submit your poster proposal as an e-mail attachment to: wanda.depassuale@umassmed.edu with the subject line reading “CTS Retreat Poster Submission”. Any questions for the Poster chairs may also be directed to this address.

eScholarship@UMMS
As in the past, we will collect and archive the meeting materials in a public archive, hosted by eScholarship@UMMS. Keep this in mind as you create your presentation. By submitting a poster proposal you agree to archive your poster in the eScholarship repository. Please be mindful not to disclose any unprotected intellectual property. eScholarship@UMMS (http://escholarship.umassmed.edu) is UMass Medical School’s institutional repository and serves as an archive to collect, showcase, and preserve scholarly publications authored by UMMS faculty, researchers, staff, and students. It contains journal articles, posters, presentations, dissertations, student projects and reports, and more. Each document in eScholarship@UMMS is assigned a long-term, stable link. The archive is optimized for searching by Google and Google Scholar, which means that documents get wide exposure. All authors of full-text documents in eScholarship@UMMS receive a monthly email with download counts for each document.

IMPORTANT DATES
The deadline for poster submissions is 5:00PM (EST) on: April 16, 2012.
Submissions will be reviewed and authors will be notified of acceptance by: April 30, 2012.

BASIC INFORMATION ABOUT POSTERS
Authors of accepted poster proposals will have a chance to present the poster to interested attendees during the poster session. Well-crafted posters will tell the story well by themselves, but authors of posters are expected to be available to describe and discuss the work in the poster during the session.

The poster board dimensions are 44”by 45”. You may choose a layout consisting of individual sheets of paper, or a monolithic large piece of poster paper.
Build a community of publications supported by CCTS funding.
Journeyman Player
Hi Sally,

Attached please find the CCTS membership list. I have also looked into my archives for more information related to the Evaluation Key Function Committee’s (KFC) Bibliometrics sub group but I do not have any documentation to pass on at this time. In discussing our conversation with Nate this afternoon, he suggested asking if you would be interested in becoming a member of the Evaluation KFC? There are no required duties associated with being a member but it would allow you to listen in to the bi-monthly webinar meetings, and if you wish, participate in the Bibliometrics and/or Social Network Analysis subcommittees. Please let me know if you are interested and I can provide you with some more information.

Thanks
Beth

Sari and Holmes ... ROCK STARS!!!
(I bet Kristi didn't mean for me to share it this way, but...)

Environmental Factor - May 2012: Team calls for creative approaches to accountability
www.niehs.nih.gov

As she discussed the limitations of citation analysis, Sari said, “There are so many more ways to tell the story.” She and Holmes have developed a hybrid solution with more than 80 indicators, but Sari cautioned the audience, “I can’t give you an SOP — a standard operating procedure.”
