Tackling New Federal Agency Public Access Mandates at the University of Arizona

Ahlam A. Saleh1, Christine Kollen1, Dan Lee1, Scott Pryor2, Lori Schultz2

1University of Arizona Libraries, University of Arizona, Tucson, AZ
2Office of Research Discovery & Innovation, University of Arizona, Tucson, AZ

BACKGROUND

Many libraries have existing services to provide support for data management requirements and for compliance of the NIH Public Access Policy.

In 2014, federal agencies began releasing their implementation plans in response to the 2013 Office of Science and Technology Policy (OSTP) Increasing Access to the Results of Federally Funded Research policy memorandum.

As a result, new requirements for a growing number of federal agencies surfaced. These include data management and publication aspects of the research data management lifecycle.

METHODS

The UA Public Access Working Group was established in mid-2016

• Charged by the UAL Vice Dean
• Appointed members:
  − Ahlam Saleh, Research Librarian, UAL (provides support for NIH Public Access Policy compliance)
  − Chris Kollen, Data Curation Librarian, UAL
  − Dan Lee, Director of Office of Copyright and Scholarly Communication, UAL
  − Scott Pryor, Training Manager, Research Partnership Services, RDI
  − Lori Schultz, Senior Director, Research Partnership Services, RDI

Scheduled regular monthly meetings
Conducted environmental scan
Drew on previous experience of existing campus support for data management plan requirements and NIH Public Access Policy compliance

RESULTS

Created a single email address for inquiries:
  • UA Public Access Working Group (LBRY-FedPol@email.arizona.edu)

Presented at the UA Faculty Senate meeting
Created an information page on the new policy requirements (Figure 2)

Box 2: Feedback- Campus Information Sessions
New investigator orientation
Expand types of learning materials
Expand list of funding bodies covered

NEXT STEPS

Augment communication strategies (e.g., email department heads and deans directly)
Develop quick guides for other agencies and funding bodies of high interest
Consider scheduling additional information sessions
Plan for the development of an overview video
Pursue campus interest in establishing an open science ecosystem at UA (RDI proposal)

• Open Science Committee charge drafting in progress (RDI & UAL)
• Committee member composition under consideration include representatives from the following groups: Information Technology, Research Faculty, UAL, and RDI
