¹University of Arizona Libraries, University of Arizona, Tucson, AZ
²Office of Research Discovery & Innovation, University of Arizona, Tucson, AZ

BACKGROUND

Many libraries have existing services to provide support for data management requirements and for compliance of the NIH Public Access Policy.

In 2014, federal agencies began releasing their implementation plans in response to the 2013 Office of Science and Technology Policy (OSTP) Increasing Access to the Results of Federally Funded Research policy memorandum.

As a result, new requirements for a growing number of federal agencies surfaced. These include data management and publication aspects of the research data management lifecycle.

METHODS

The UA Public Access Working Group was established in mid-2016

• Charged by the UAL Vice Dean
• Appointed members:
  – Ahlam Saleh, Research Librarian, UAL (provides support for NIH Public Access Policy compliance)
  – Chris Kollen, Data Curation Librarian, UAL
  – Dan Lee, Director of Office of Copyright and Scholarly Communication, UAL
  – Scott Pryor, Training Manager, Research Partnership Services, RDI
  – Lori Schultz, Senior Director, Research Partnership Services, RDI

Scheduled regular monthly meetings

Conducted environmental scan

Drew on experience of existing campus support for data management plan requirements and NIH Public Access Policy compliance

RESULTS

Created a single email address for inquiries: UA Public Access Working Group (LBRY-FedPol@email.arizona.edu)

Presented at the UA Faculty Senate meeting

Created an information page on the new policy requirements (Figure 2)

INCLUDE GRAPHICS

OBJECTIVES

In early 2016, two campus units at the University of Arizona (UA) collaborated to address how the university can help researchers with the new growing federal agency mandates.

• University of Arizona Libraries (UAL)
• Office of Research, Discovery & Innovation (RDI)

NEXT STEPS

Augment communication strategies (e.g., email department heads and deans directly)

Develop quick guides for other agencies and funding bodies of high interest

Consider scheduling additional information sessions

Plan for the development of an overview video

Pursue campus interest in establishing an open science ecosystem at UA (RDI proposal)

• Open Science Committee charge drafting in progress (RDI & UAL)

• Committee member composition under consideration include representatives from the following groups: Information Technology, Research Faculty, UAL, and RDI

CONTACT INFORMATION

Ahlam Saleh: saleh1@email.arizona.edu

Held campus information sessions (Box 1 & 2)

Box 1: Overview- Campus Information Sessions

Three sessions

Duration of 1 hour

Presented by working group members

Presentation outline:
• Overview of the working group and charge
• Clarification of UA OA Policy and the federal agency public access policy mandates
• Introduction of the new information page
• Debrief on each agency’s publication policy and demonstration of the quick guides
• Debrief on each agency’s data policies
• Q&A

Box 2: Feedback- Campus Information Sessions

New investigator orientation

Expand types of learning materials

Expand list of funding bodies covered

Updated the existing federally funded research requirements table which is on the data management website (Figure 4)
