History & Background

- JeSLIB launched in 2012
- “e-Science” – What in the world does this mean?
  - Expansion of library services to include
    - Management
    - Curation
    - Dissemination
    - Large and small scale research
  - Collaboration among computationally intensive science disciplines
  - Data/data sets then captured, transported, stored, organized, accessed, mined, visualized, and interpreted
- Role for librarians: characterized by interdisciplinary research collaboration and the collection, organization, and management of data.
- JeSLIB’s mission: Advancing the theory and practice of librarianship with a special focus on services related to data-driven research in the physical, biological, social, and medical sciences, including public health.

Aims & Scope
Aims & Scope

The *Journal of eScience Librarianship (JeSLIB)* is an open access, peer-reviewed journal advancing the theory and practice of librarianship focusing on services related to data-driven research in science, technology, engineering, math, social sciences, medicine, and public health. *JeSLIB* explores the many roles of librarians in supporting eScience and welcomes articles by contributors from all areas of the globe related to education, outreach, collaborations, policy, tools, and best practices. Submissions covering both theoretical and practical applications are welcomed.

General topics of interest may include but are not limited to:

- Research data management
- Librarians embedded on research teams
- Data services, including policy development
- Data curation
- Data sharing and re-use
- Data management plans
- Data preservation
- Metadata and discoverability
- Institutional and discipline-specific repositories
- Impact of governmental or institutional policies
- Open data, open science and open access
- Data literacy and data education
- Data citation
- Tracking impact of research data, metrics
- Big data
- Visualization

Peer Reviewer Survey
http://data.surveygizmo.com/r/385549_585bc42f564898.58406757

• Would you like recognition for being a peer-reviewer?
  Yes = 19 (70.4%)
  No = 4 (14.8%)
  Not sure = 4 (14.8%)

• If yes, how would you like to be recognized? (Select all that applied)
  o Feedback on the usefulness or quality of your review (15)
  o Acknowledgment on JeSLIB homepage (11)
  o Receive a certificate and a letter recognizing your contribution (6)
  o Reviewer Awards to acknowledging top reviewers (quality, quantity and timeliness) (6)
  o Using Publons http://home.publons.com/ (6)
  o Given a reviewer status (example: Outstanding Reviewer) (4)
  o Annual list/annual list with photos in journal (4)
  o Other – “I want some way to demonstrate that I made a contribution -- part of recognition at my institution is regional/national work, so I like to be able to provide demonstrable work to my supervisors.” (1)
