Young Adults with Serious Mental Health Conditions Actively Participate in the Research & Dissemination Process

Young Adults Getting Involved:
Participatory Action Research & Transition Age Youth

Key principles employed at Transitions RTC
- Personal commitment of research leadership
- Good communication
- Individualized respectful approach
- Promoting young adult self-efficacy
- Developmentally appropriate vocational supports
- Adult mentoring

RTC strengths
- Associate Director for PAR
- Four TAY employees
- TAY staff producing effective social media
- TAY staff developing their own research project on the experience of TAY in college
- Staff making efforts to address TAY staff concerns

Major challenges for RTC
- Addressing needs of TAY in their first office job
- High energy environment can add to TAY stress
- Adult staff uncertain about their respective roles in guiding TAY employees
- Irregular supervision

Challenges being addressed
- Creating time in supervisor’s schedule for regular supervision
- Creating time for TAY staff monthly peer support meetings
- Workshop for all staff on reasonable accommodations
- WRAP (Wellness Recovery Action Plan) plan training for interested TAY staff
- Looking into internal supported employment

Improve Supports For TAY & Young Adults Who:
- are between the ages of 14 & 30
- have a serious mental health condition
- want to complete schooling & training to move into rewarding work lives

Research participation brings new vocational skills, self-efficacy, and a sense of hope

TAY participation in the research process enhances the relevance of research questions and quality of methods

TAY knowledge of social media brings effective methods of collecting data and disseminating findings

TAY are the most effective communicators of research findings & recommendations in terms of impacting policy & practice changes

The Learning & Working Transitions RTC
Jonathan Delman, JD, MPH, PhD,
Associate Director of Participatory Action Research

There is insufficient research on the needs & preferences of Transition Age Youth (TAY)

Principles:
- support transition age youth & young adults as students, learners & workers
- examine ways for programs to address the unique needs of transition age youth & young adults
- partner with transition age youth & young adults to conduct research & share our findings
