E-Science Symposium

This annual day-long event serves as a venue for researchers and educators to engage and collaborate and opportunity for science and health sciences librarians to discuss e-science research. In addition to discussions on the concepts and tools that librarians and educators might use to promote research support at their institutions.

Global Health: Liberia

The Doggett Medical Library continues to grow. In FY2012, 13,507 research works in the library's bibliographic database, 1,712 theses and dissertations, 2,290 books, and 2,937 journal titles. The library system was the result of the merger of the Scientific Training Library at the A.M. Dogliotti College of Medicine at the University of Liberia in Monrovia, Liberia, and the Medical Library at the University of Liberia in Monrovia, Liberia.

Education & Outreach

The goal of Research and Scholarship Communication Services of the Lamar Soutter Library is to provide the UMass research community with the information resources, services, and support they need to conduct and disseminate new research in biomedical sciences. To this end, we serve the basic sciences, clinical research, faculty, students, and researchers through a variety of programs and services.

E-Science

At the annual day-long event serves as a venue for researchers and educators to engage and collaborate and opportunity for science and health sciences librarians to discuss e-science research. In addition to discussions on the concepts and tools that librarians and educators might use to promote research support at their institutions.

Copyright & Licensing Services

As more and more library resources are acquired in electronic formats, reviewing those licenses for their permitted uses, authorized users, and other contract terms has become an important function of the Lamar Soutter Library (LSU). Licensing Services communicates with the vendor, the UMass Office of the General Counsel, and the LSU Office of the Treasurer in order to facilitate a license agreement that provides the right to use all rights required by the LSU (UMass) researchers, faculty, students, and staff.

Acquisition of Archival Collections

New collection highlights from the Lamar Soutter Library:
