Google Scholar provides a simple way to broadly search for scholarly literature. From one place, you can search across many disciplines and sources: articles, theses, books, abstracts and court opinions, from academic publishers, professional societies, online repositories, universities and other web sites. Google Scholar helps you find relevant work across the world of scholarly research.
Estimating the future number of cases in the Ebola epidemic—Liberia and Sierra Leone, 2014–2015
MI Meltzer, CY Atkins, S Santibanez, B Knust… - MMWR Surveill ..., 2014 - cdc.gov
The first cases of the current West African epidemic of Ebola virus disease (hereafter referred to as Ebola) were reported on March 22, 2014, with a report of 49 cases in Guinea. By August 31, 2014, a total of 3,685 probable, confirmed, and suspected cases in West ...

Possible sexual transmission of Ebola virus—Liberia, 2015
In addition to patient A, survivor A reported recent unprotected vaginal intercourse with a woman aged 45 years (contact A) with no history of illness. Intercourse with contact A occurred on three to five occasions between the last week of February and March 15, 2015 ...

Modeling the impact of interventions on an epidemic of Ebola in Sierra Leone and Liberia
Background: An Ebola outbreak of unparalleled size is currently affecting several countries in West Africa, and international efforts to control the outbreak are underway. However, the efficacy of these interventions, and their likely impact on an Ebola epidemic of this size, is ...

T Nyenswah, M Fahnbuehle, M Massaquoi… - MMWR. Morbidity and ..., 2014 - europepmc.org
Abstract On March 21, 2014, the Guinea Ministry of Health reported the outbreak of an illness characterized by fever, severe diarrhea, vomiting and a high fatality rate (59%), leading to the first known epidemic of Ebola virus disease (Ebola) in West Africa and the …
