A Brief History

The RAC Hospital Library Subcommittee
INTRODUCTION

In 2004, as part of its Regional Advisory Council (RAC), the National Network of Libraries of Medicine, New England Region (NN/LM NER) formed the Hospital Library Subcommittee, with the charge to promote the value of hospital libraries throughout the region. Over its 7-year tenure, the Subcommittee has tracked a gradual decline in support for hospital libraries, evidenced by budget cuts and library closures. The status quo had ultimately become untenable.

In 2009, the Subcommittee began to shift focus from library advocacy towards a new strategy: a 5-year plan to assist hospital libraries with the transition to healthcare knowledge services centers (HKSCs) within their institutions.

Phase One work products:
- HKSC Template
- KM Webinars
- KM Day Event
- KM Pilot Guidebook (under development)

Comments from KM Day attendees:
- "Most helpful is that all this information has given me hope that it is possible for us to transform, and that we can take an active part rather than passively sit by watching the world change around us."
- "Practical ideas were shared on how we can negotiate our part in the future of libraries. This is the first time I have felt hopeful about this."

Funded by: NN/LM NER

5-year, 3-phase project:
- Phase 1: Development
- Phase 2: Implementation
- Phase 3: Evaluation

AN UMBRELLA OF ADVOCACY SERVICES FOR HOSPITAL LIBRARIES

- Are you just arriving at your institution?
- Are you expecting reductions in staff, hours, services, or space?
- Are you leaving the library, hoping the institution hires a suitable replacement?
- Just got word that your library will be going through a consolidation or merger?
- Has your institution already announced that it’s closing its doors?
- Are rumors circulating about eliminating the library entirely?
- Where can you find...
  - Help?
  - Someone to talk to?
  - Someone to understand?
  - Someone that will do something?

Advocacy
- You're really not alone... there is someone you can talk to!
- Customizable to fit your situation and your institution

A New Strategy -- A New Model

- Rooted in Knowledge Management
- Redefines our role
- Gives us a “place at the table”
- Provides recognized value
Why KM?

- positive push forward
- bridge between information and BP
- support for institutional goals
- competitive edge in marketplace
- window of opportunity
  - navigators
  - facilitators
  - EBP collaborators
  - patient educators
“Within a healthcare organization, knowledge management is responsible for providing the assessment of and accessibility to refined information (i.e., knowledge), serving a widely diverse population, guided by evidence based practice.”

What does Knowledge Management look like in a health care setting?

- Abbreviations Database
- Plain Language thesaurus.
- EMR links to KBI
- Decisions on both internal and external knowledge-based resources (*acquisitions and access*)
- Web portal for both internal & external resources.
- Meta tags for internal documents and intranet pages.
