Funding for NESCEIS comes from the CMS Center for Consumer Information and Insurance Exchange Systems (NESCIES)

- Policy and planning with resources for implementing exchanges
- Oversight (CCIIO), established in CMS, to provide States subsidies for eligible residents earning below 300% of Federal Poverty Level (FPL)

• Individuals and small businesses
• <133% of FPL
• Medicaid expansion to <133% of FPL
• Tax credits managed by the Internal Revenue Service (IRS)

Achievements as of 2010
- 98.1% of adults and 99.8% children insured after 3 yrs
- Of newly insured, 25% private pay
- 98% compliance (taxpayer filings)
- 59% - 75% voter approval rating

Established functioning health insurance exchange (HIX)

2010 Affordable Care Act

Coverage Expansions:
- Medicaid expansion to <133% of FPL
- Insurance subsidies (as advanceable tax credits) to <400% of FPL
- Individual mandate like MA
- Insurance Market Reforms
- Requires all states to establish insurance exchanges

Massachusetts Insurance Exchange

• Provides standardized shopping experience for individuals and small businesses
• Makes insurance affordable by direct application of subsidies for eligible residents earning below 300% of Federal Poverty Level (FPL)

2006 Massachusetts Health Reforms

- 98.1% of adults and 99.8% children insured after 3 yrs
- Of newly insured, 25% private pay
- 98% compliance (taxpayer filings)
- 59% - 75% voter approval rating
- Established functioning health insurance exchange (HIX)

Our Project

Goal: To create Health Insurance Exchange (HIX) Information Technology components in Massachusetts that are consumer-focused, cost-effective, reusable, and sustainable and that can be leveraged by New England and other states to operate Health Insurance Exchanges.

The NESCEIS project approach will be to create and build a flexible HIX Information Technology framework in Massachusetts designed to connect consumers, small businesses, and health plans that can be tailored to the needs of the New England states and beyond.

Achieving this goal will require the creation of solutions that are component-based, adaptable, and based on the standards required by the ACA.

Core Functions of ACA Mandated Exchanges

1. Eligibility and Enrollment
- Employer enrollment in an Insurance SHOP Exchange
- Individual enrollment in a qualified health plan offered through the Insurance Exchange
- Integration with Medicaid and CHIP

2. Plan Management
- Plan certification, recertification and decertification
- Issuer contracting
- Plan rating

3. Financial Management
- Premium determination including premium tax credits and cost sharing
- Plan assessment, reinsurance, risk adjustment, and risk corridors functions
- Individual insurer reconciliation

4. Customer Service
- Manage responses to information requests and requests for service
- Efficient distribution/management of requests across phone, web, paper, and face-to-face

5. Communications
- Communications and outreach strategies; content and messaging
- Measurement/reporting of communication effectiveness

6. Oversight
- Federal oversight of Exchange operations
- Insurance Exchange management and operations
- Certifying exemptions from mandate

Massachusetts Exchange Vision

Project Status

- Completed 2 federally mandated “gate” reviews – Architecture and Project Baseline Review
- Business Process Redesign (BPR) underway to identify gaps and create a blueprint for the exchange to meet 2014 goals
- Analyzing and updating policies on state level to comply with federal ACA
- Working with New England states to identify and develop reusable technology components

Potential Research Questions

- Consumer characteristics impact on health plan benefit design and plan selection
- Understanding and optimizing consumer’s health plan “purchasing” decision
- Plan selection/benefit type impact on general and specific clinical outcomes
- Effect of HIX design (e.g. active vs. passive) and functionality (e.g. active consumer support) on system outcomes (e.g. affordability, availability, take-up, etc.)

Acknowledgements

Funding for NESCEIS comes from the CMS Center for Consumer Information and Insurance Oversight (CCIIO) CFDA No. 93.525. The NESCEIS project is a collaborative effort with:

MassHealth and HealthCare.gov and States Funded to Operate Exchanges

And the State health and human services agencies in: Connecticut, Maine, New Hampshire, Rhode Island, and Vermont
