Prescription for Progress: NN/LM New England Region Subcontractor Outreach Activities

Authors: Michelle Eberle, Penny Glassman, Javier Crespo, Donna Berryman, Mark Goldstein

NN/LM Mission

The mission of the National Network of Libraries of Medicine (NN/LM) is to advance the progress of medicine and improve the public health by: 1) providing all U.S. health professionals with equal access to biomedical information; and, 2) improving the public's access to information to enable them to make informed decisions about their health. The Program is coordinated by the National Library of Medicine and carried out through a nationwide network of health science libraries and information centers.

Tufts University
Selected Patient Information Resources in Asian Languages (SPIRAL)

The purpose of the Tufts SPIRAL project is to make Asian language consumer health resources readily available to the Asian community in Boston, and its surrounding areas. The Asian community in Boston is expanding rapidly. This project created a web resource that consists of translated and developed links to consumer health-related information sites in Cantonese, Chinese, Hmong, Korean, Laotian, Thai, and the Vietnamese languages. The site is provided through community organizations such as the South Coast Community Health Center.

New Haven Public Library Yale University Consumer Health Information Network

The Yale School of Medicine, the Courtney Whitney Medical Library, the Epidemiology and Public Health Library, and the New Haven Free Public Library's collaboration for building a Consumer Health Information Network (CHIN) at the New Haven Free Public Library. The CHIN serves the New Haven region as well as surrounding towns by providing access to web training in the use of health-related resources to local libraries.

These programs have been funded by the National Library of Medicine under a contract (#No1=LM-3518) with the University of Massachusetts Medical School in Worcester
