The Library Fellows Program

The library created and began a new education and experience program for recent library school graduates. Intended to offer practical, hands-on experience in the complex and constantly changing world of medical librarianship, this two-year program has helped developing librarians, researchers, and medical professionals discover their true calling.

Lamar Soutter Library: A Leader in Service

Highlight of Programs and Services

Grants/Sub-Contracts in Effect FY2014

Lamar Soutter Library: A Leader in Service

Office of Medical History & Archives

During FY2014, AHA organized a number of events to enrich the UMMS community of students and faculty. The AHA presented its annual History of Medicine at University Hospital and the history of NIOSH. AHA organized an open house, which was opened by several exhibits created by AHA and the library staff. Online history exhibits were also created, including a virtual exhibition and a timeline of Knowledge Management which was created and subsequently published on the AHA website. University of AHA is a research and education tool that is accessible to the public.

Lamar Soutter Library: A Leader in Service

House Librarian Program – Lamar Soutter Librarians are now firmly embedded within the five UHMS Learning Communities. Since Fall 2014, a library-related, written by one of the librarians, is appearing regularly in the House Newsletter. The newsletter librarians attend the Internal 300 Convening Event. The house cup trophy, awarded at the end of each academic year, is now housed within the Lamar Soutter Library. A librarian continues to manage the program, and resource sharing services to health professionals and consumers in New England states.

Partnering in Access for Public Health Worksite Environments

Marianne Felice, M.D., with panelists: Ms. Gail Hines, Hon. John Conte, Esq., Oscar Starobin, policy experts: Augustus White, M.D., Ph.D., Louis Sullivan, M.D., and David Chanoff, Ph.D.

Office of Medical History & Archives

The Office of Medical History and Archives (OMHA), located within the Lamar Soutter Library, is dedicated to preserving and promoting the history of medicine, Massachusetts biotechnology, and health-related sciences at UMass Medical School. The Library created and began a new education and experience program for recent library school graduates. Intended to offer practical, hands-on experience in the complex and constantly changing world of medical librarianship, this two-year program has helped developing librarians, researchers, and medical professionals discover their true calling.
