The e-Science Portal is a resource for librarians, library students, information professionals, and interested individuals to learn about and discuss:

- Library roles in e-Science
- Fundamentals of domain sciences
- Emerging trends in supporting networked scientific research

**Getting Started in e-Science**

**Preparing eScience Librarians for Managing Research Data**

**e-Science Thesaurus**

**Data Life Cycle**

1. **Discover**
2. **Integrate**
3. **Plan**
4. **Collect**
5. **Analyze**
6. **Assure**
7. **Preserve**
8. **Describe**

**Data Literacy**

**Science Primers**

**What is open science?**

“science carried out and communicated in a manner which allows others to contribute, collaborate and add to the research effort, with all kinds of data, results and protocols made freely available at different stages of the research process.”

Research Information Network, Open Science case studies

**Sponsored e-Science Programs:**

We encourage community involvement through portal comments, discussions, contributions and attending events. Join the conversation and participate in many regional data science events and programs!
