Pathways to Friendship-Building Friendships One Person at a Time

An innovative two-year project to expand and improve the inclusion of people with IDD

Christine J. Clifford\(^1\), MHP; Jim Ross\(^2\), BA

Pathways to Friendship (Pathways), is a collaboration between The Arc of Massachusetts (The Arc) and the Massachusetts Department of Developmental Services (DDS) with an evaluation component provided by The Center for Developmental Disabilities Evaluation and Research (CDDER).

Pathways includes training and consultation to disability service organizations on approaches to improve community inclusion and establish friendships between people with and without IDD.

**Background**

For people with Intellectual and Developmental Disability (IDD), making friends and participating in the community can be a challenge. Pathways to Friendship (Pathways), is a collaboration between The Arc of Massachusetts (The Arc) and the Massachusetts Department of Developmental Services (DDS) with an evaluation component provided by The Center for Developmental Disabilities Evaluation and Research (CDDER).

**Definition**

For the purposes of this project, a friend is a person who is unrelated to the participant, not paid to spend time with the participant and not receiving services.

**Framework**

- 108 Participants with IDD
- 101 Residences
- 13 Organizations

**Strategies Used to Explore Friendship**

- Deeper Relationship
- Member of a Group
- Reconnect
- New Skills
- Existing programs
- Connect Neighbors
- Interns/Volunteers
- Group Matching
- 1-to-1 Match Making
- Started a Group

**Participant Demographics**

- Majority of Participants are white females, between the ages of 50-59.
- Most with Mild IDD: Mental/Physical Co-Morbidities
- 26% Work (3% full time, 4% Enclave)
- 50% in CBDS, DayHab
- 72% Group Home, 14% Shared Living, 9% Individual Supports
- 54% live in Suburban Areas

**Challenges**

- Social inclusion and relationships
- StaffCommitment, Time, Training
- Staff is engaged, Friendly, Supportive
- Consistency: Repetition, Routine, Trial Runs
- Encouragement, Coaching, Role Model
- Participant Willingness: Social, Friendly, Not Shy
- Doing What the Participant Likes to Do
- Positive Behavioral Supports
- Going Out More
- Never Hurts to Ask!

**What Works**

- Social Inclusion a Priority for Organization, Executive Support
- Staff Commitment, Time, Training
- Staff is engaged, Friendly, Supportive
- Consistency: Repetition, Routine, Trial Runs
- Encouragement, Coaching, Role Model
- Participant Willingness: Social, Friendly, Not Shy
- Doing What the Participant Likes to Do
- Positive Behavioral Supports
- Going Out More
- Never Hurts to Ask!

**Baseline**

While most organizations indicated that social inclusion was a priority, at baseline, 41% of organizations had not engaged participants in interest exploration or relationship mapping. Time in the community included activities such as going to the grocery store, out to eat/coffee and to the bank, not ideal activities for meeting people and developing friendships. Majority of involvement in the community was done through disability-specific organizations, such as self advocacy groups.
