Welcome to the e-Science Forum - AM
RDM 2020 and 2030

U.S. National Library of Medicine
National Network of Libraries of Medicine
New England Region
Agenda

9:30 - 10:00 AM  
Arrival, networking, light snacks

10:00 - 11:00 PM  
Keynote: GIS and Data: Making Space @ MIT
Amy L. Nurnberger, the Program Head of Data Management Services at MIT
Daniel Sheehan, the Head of GIS & Statistical Software Services at MIT

11:00 - 12:00 PM  
RDM 2020 Project Sharing (Lightning Talks)
Jen Ferguson - References to library support & services in grant proposals
Julie Goldman - Data Science Training for the Future: Building a Carpentries Consortium
Tess Grynoch - RDM 102: The Instructor Experience
Renee Walsh - Building a RDM Community

12:00 - 1:00 PM  
Lunch & Networking

1:00 - 3:00 PM  
RDM 2030: Envisioning the Future: Challenges, Feasibility and Solutions: Hands on Workshop
Welcome to the e-Science Forum - PM
RDM 2020 and 2030
RDM 2030: Envisioning the Future: Challenges, Feasibility and Solutions: Hands on Workshop

Scope of e-Science – 10 minutes

e-Science vs RDM - 20 minutes

Go to www.menti.com enter code: 89 71 31

e-Science needs Brainstorm/Vision – 10 minutes

Round Robin posters – 10 minutes
Round Robin discussion – 10 minutes

Group Graphing – 20 minutes

Top Three Takeaways – 15 minutes

Data Bingo – 15 minutes

Evaluation – 5 minutes

Paper or Online at: https://forms.gle/4k7mVZmtaruGYrFo7

Objective: To be introduced to a new idea, topic, tool, solution or personal connection that you plan to use or follow up with in the future
Funding - [https://nnlm.gov/ner/funding](https://nnlm.gov/ner/funding) Due April 5

Support projects that stimulate innovations in biomedical knowledge or data management and information or research services at the health care or research institution.

“You can have data without information, but you cannot have information without data.”

— Daniel Keys Moran
What does e-Science mean to you?

https://www.mentimeter.com/s/a7ece5eb7d7f3bc62861dcc591d674b9/8d4696ce157f/edit

1. Go to www.menti.com
2. enter code: 89 71 31
What word(s) would you use to describe e-Science?
What word(s) would you use to describe Research Data Management?
Draw what you think the future of RDM will look like
Connections/Needs Assessment

Directions: There are 8 questions – you will have **10 minutes** to fill out

(one idea per sticky note)

1. What is your institution doing to address RDM challenges?
2. What are needs that need to be fixed for RDM to work?
3. What are the challenges, barriers, or problems currently with RDM?
4. If money was not an object what RDM project would you do?
5. Is a community of interest helpful - how should it be set up?
6. How should we create a data ready workforce?
7. What tools, webinars or services do you think would be helpful for the future?
8. What needs to happen to make the future great for RDM?
Round Robin – 15 minutes

1. One idea per post-it
2. Add to poster
3. If the same add over post it
4. Is concept/idea you agree with - add ✓
5. If your institution faced this issue and has a solution - put a star and on back put solution or info to contact
Round Robin

What was the question?
Were there any topics with multiple post its?
Were there any check marks?
Were there any solutions/stars?
Group Graph - Overview

Problem: Individual solution 1 post it per idea

Make graph

Working together Add post it solutions to graph
Planning for Sustainability – Group Graphing

Introduction/Purpose: How do we sustain NE e-science community?

Individually: What should the NNLM NER do to support the NE E-science community in developing a workforce of data-ready librarians? What would help you?

(one idea per sticky note) (5 min)
Group Graphing

2) Designate scribe - Draw large graph “Giant “L” on poster sized graph (10 min)
X Axis – Feasibility: small/ easy       large/ difficult
Y Axis - Impact: low impact àgreatest impact (show picture/ demonstration)

3) On a large sheet, arrange ideas onto X-Y axis.

4) Each group share 2-3 key areas of action. (10 min)
Top 3 Take Away

1) Write down to three ideas you can take back and implement at your institution Now and Later (10 minutes)

2) Each group share 2-3 key areas of action. (10 min)
The Data Thesaurus is the updated eScience Thesaurus which was created by Kevin Read in 2013 and previously resided on the eScience Portal for Librarians (Read et al., 2013). The Thesaurus was rebranded and updated in 2018 by Tess Grynoch for the NNLM RD3 site.

CREDITS

Special thanks to all the people who made and released these awesome resources for free:

- Presentation template by SlidesCarnival
- Photographs by Unsplash

This presentation uses the following typographies and colors:

- Titles: Dosis
- Body copy: Titillium Web

You can download the fonts on these pages:

http://www.impallari.com/dosis
http://www.campivisivi.net/titillium/

Pastel green #d3ebd5 • Green #80bfb7 • Teal #0b87a1 • Navy #01597f • Dark navy #003b55
SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change fill color and opacity.
- Change line color, width and style.

Isn’t that nice? :) 

Examples:
Now you can use any emoji as an icon!
And of course it resizes without losing quality and you can change the color.

How? Follow Google instructions
https://twitter.com/googledocs/status/730087240156643328

and many more...
