FUNDING

CCTS SPARK Program (Small Pilot and Research Knowledge)
CCTS Small Conference Grants
DRIVE’s EZ-BAA
NCATS Funding
What Do You Aspire To? May 31, 2019
NEW: Vilcek Foundation Cash Awards in Biomedical Science June 10, 2019

CCTS SPARK PROGRAM: Rolling application deadline. This program’s priorities are to support studies that impact clinical care and research methodologies, support students/trainees, and provide access to funds to generate pilot and preliminary data for external grant submissions. For more information, click on this link: https://www.umassmed.edu/ccts/funding/spark-program/

CCTS SMALL CONFERENCE GRANTS: Rolling application deadline. This funding facilitates the development of faculty-to-faculty networks within the University system. Click on this link for more information: https://umassmed.edu/ccts/funding/small-conference-grants/

DRIVE’s EZ-BAA APPLICATION PROCESS: Is now open for business! Calling all medical product developers, research teams, and companies! Those offering disruptive innovative approaches that will transform health security threats are now invited to submit abstracts using DRIVE’s simplified EZ-BAA process. Applications must offer transformative innovation, products, and technologies to protect Americans from health security threats.

In-scope priority areas include:
- Products and solutions to reduce illness and death from sepsis as part of DRIVE’s Solving Sepsis Initiative;
- Technologies and processes to identify infections and exposures to biological and other health threats, as outlined in the Early Notification to Act, Control, and Treat (ENACT) initiative; and
- Tools and techniques to mitigate the damages and loss of life associated with catastrophic events

Download the DRIVE EZ-BAA abstract submission application, click here.
To learn more about the DRIVE EZ-BAA, click here.
NCATS FUNDING: NCATS has announced funding opportunities to use partially developed therapeutic candidates to identify new treatments for a broad range of diseases. For full details, click on this link: https://ncats.nih.gov/news/releases/2018/ntu-foa-2018

WHAT DO YOU ASPIRE TO? NCATS invites innovators to learn more about Design Challenges for Translational Innovation in Pain, Opioid Use Disorder, and Overdose. The goal of the ASPIRE Challenges is to reward and spur innovative and catalytic approaches toward solving the opioid crisis through (1) development of novel chemistries; (2) data-mining and analysis tools; and (3) biological assays that will revolutionize discovery, development and pre-clinical testing next generation, safer and non-addictive analgesics to treat pain, as new treatments for opioid use disorder (OUD) and overdose. For more information, click here.

NEW: VILCEK FOUNDATION PRIZES IN BIOMEDICAL SCIENCES: The Vilcek Foundation is currently seeking applicants for the 2020 Vilcek Prizes for Creative Promise in Biomedical Science. Applications accepted from FOREIGN-BORN scientists age 38 and under, from now through June 10, 2019. Three winners will receive a $50,000 unrestricted cash prize and be honored at an awards ceremony in NYC (April 2020). For more information, please contact Shinnie Kim, Program Officer, at 212.472.2500 or via email at creativepromise@vilcek.org. To register, the online application can be found at www.vilcek.org.

EDUCATION

Baystate Research and Education Day May 15, 2019
K Club
NEW: ISSR Methodology Workshops (Spring 2019 / multiple dates)

BAYSTATE RESEARCH AND EDUCATION CELEBRATION DAY May 15, 2019. The Offices of Education & Research are excited to announce the Baystate Research and Education Celebration Day, May 15, 2019 at the Chestnut Conference Center at Baystate Medical Center. This full day of programming includes two keynote speakers, concurrent sessions on research and education throughout the day, a poster session, and an award ceremony/reception for Research and Teaching Awards. Events are open to all. For more information, contact Susan.Decelle@baystatehealth.org.

K CLUB: Meets every other Wednesday from 4:00pm to 5:00pm in S2-121 to provide information and feedback on Research Career Award applications (NIH K Awards, VA Research Career Awards, CTSA K grants, etc). Participants receive feedback on their biosketch, training plans, research plan, specific aims, and a wealth of other information.

For more information, visit: https://www.umassmed.edu/ccts/education/k-club
ISSR METHODOLOGY WORKSHOPS / SPRING-SUMMER 2019: New free workshops being offered in Amherst this spring (see list below). For more information or to register, click here.

- **Meeting Ethnography**: Qualitative Research in Meeting-Rich Settings: **June 3-4** / 9am-2pm / Instructor Jen Sandler
- **Qualitative Research Design and Methods**: **June 5-7** / 9am-3pm / Instructors: Chrystal George Mwangi and Ezekiel Kimball
- **De-Mystifying Public Engagement**: **June 10-12** / 9am-4pm / Instructor Ezra Markowitz
- **Introduction to Qualitative interviewing**: **June 13-14** / 9am-3pm / Instructor Chrystal George Mwangi and Ezekiel Kimball
- **Getting Started with Bayesian Statistics**: **June 20-21** / 9am-4pm / Instructors Jeff Starns and Andrea Cataldo
- **Causal Inference with Graphical Models**: **June 25-26** / 9am-4pm / Instructor David Jensen
- **Organizing and Analyzing Qualitative Data with NVivo 11 for Windows**: **July 9-11** / 9am-1pm / Instructor Eric Griffith

---

**EVENTS**

**Call For Papers for Themed Issue on: Clinical and Translational Science to Improve Rural Health.**

**NEW: CureAccelerator Live! May 23, 2019**

**2019 Regulatory Education for Industry (REdI) Annual Conference May 29-30, 2019**

**M2D2: Meet with...Sante Ventures May 30, 2019**

**AAMC Grant Writers Workshop June 27, 2019**

**14th Annual Texas Conference on Health Disparities June 6-7, 2019**

**M.C. Chang Distinguished Lecture: Arthur Caplan, PhD June 6, 2019**

**Call For Papers for Themed Issue on: Clinical and Translational Science to Improve Rural Health.** The Journal of Clinical and Translational Science is issuing a Call for Papers for a special themed issue which will focus on Clinical and Translational Science to Improve Rural Health. For more information see the this link: https://www.cambridge.org/core/services/aop-file-manager/file/5c98debabd3c7f58081e9aa5/Call-for-Papers-Rural-Health-JCTS-Final-for-Core.pdf

**NEW: CUREACCELERATOR LIVE! May 23, 2019.** Register to attend the CureAccelerator Live! For the Developing World Event including Reception, Finalist Pitch, and Award Program, beginning at 5pm. Event is being hosted by Takeda Pharmaceuticals in Cambridge MA. Attendees vote for the clinical repurposing project that will win $50,000 in funding! Registration is open until May 23. To register, click here.

**2019 Regulatory Education for Industry (REdI) Annual Conference.** The Food and Drug Administration's (FDA) Center for Drug Evaluation and Research Small Business and Industry Assistance (CDER SBIA), and Center for Devices and Radiological Health (CDRH) Division of Industry and Consumer Education (DICE) are pleased to invite you to the 2019 Regulatory Education for Industry (REdI) Annual Conference.
May 29-30, 2019, The Revere Hotel, 200 Stuart Street, Boston, MA 02116

To register (free):

M2D2: Meet with...Sante Ventures. The Johnson & Johnson Innovation | JLABS Meet with... Series helps life sciences entrepreneurs, as well as the academic community, connect with potential partners including corporate venture, VCs, Angels and others.

Join us as Santé Ventures presents an overview of the fund, its investment strategy, primary areas of interest, and investment case studies. Following the presentation, they will meet 1-on-1 with companies that have been accepted after applying online.

Complete details at: https://meetwithsanteventures.splashthat.com/

AAMC GRANT WRITERS WORKSHOP: June 27, 2019. This intensive one-day workshop is open to those actively working on both K and R NIH grant proposals. Additional virtual online learning sessions and continued peer review will be available over 2-3 months to strengthen proposals. Registration is open, applications are due April 11, 2019. For more information, please contact minfac@aamc.org.

14th ANNUAL TEXAS CONFERENCE ON HEALTH DISPARITIES: June 6-7, 2019. “Social Epigenomics & Health Disparities.” Evidence based approaches that identify mechanisms by which social experiences at various stages of life, both positive and negative, affect gene function and thereby influence health in racial/ethnic minority and health disparity population. The conference will feature nationally renowned speakers and will highlight evidence-based clinical, community and policy approaches to improving maternal and child health across the United States. To learn more, click here.

NEW: M.C. CHANG DISTINGUISHED LECTURE: June 6, 2019 4:00pm-5:00pm, ASC Auditorium. Speaker: Arthur Caplan, PhD, Professor of Bioethics, Founding Head of the Division of Medical Ethics, NYU School of Medicine. Discussion and reception immediately following the seminar. For more information, contact Dr. Thoru Pederson 508.856.8667 or Dr. George Witman, 508.856.4038.

National Center for Data to health (CD2H)
Recruitment and Retention Toolkit
UMCCTS Intake Portal

CTSA REGULATORY EXPERTISE: Three North Carolina Clinical and Translational Science Awards (CTSA) Program hubs have collaborated to create a platform for sharing regulatory expertise and best practices. The Regulatory Guidance for Academic Research of Drugs and Devices (ReGARDD) Program provides researchers with regulatory guidance, education, and consultative support, to ultimately help them move promising products and novel discoveries to clinical trials.

ReGARDD, which is coordinated by Duke University, the Wake Forest School of Medicine, and the University of North Carolina at Chapel Hill hubs with partner RTI International, officially launched in 2015 and has been developing since. The program builds upon the existing services and knowledge of the North Carolina CTSA Program Regulatory Groups and the Research Triangle Park (RTP).

Read the full story here. Visit the ReGARDD website here.

DIAMOND PORTAL: To address the need for consistent training assessment and measures of competency, the Michigan Institute for Clinical & Health Research (MICHR) has collaborated with the Ohio State University, Rochester University, and Tufts University to launch the DIAMOND Portal. It is a pioneering digital collection that serves as a sustainable, federated database for members of clinical and translational research study teams to share and access training and assessment resources. For more information, visit https://www.michr.umich.edu/news/2018/10/15/new-diamond-portal-allows-ctsa-members-to-access-share-training-and-assessment-materials

HRPP QA/QI: The Human Research Protection Program (HRPP) Quality Assurance/Quality Improvement (QA/QI) Program is a component of the UMass Center for Clinical and Translational Science. The program is independent of the IRB and helps study teams and investigators by conducting routine post-approval monitoring of on-going research to evaluate adherence with institutional requirements and federal regulations. If there are review findings, the QA/QI manager shares those findings with investigators and study teams, and provides direct education on the findings, including how to avoid making similar errors in the future. In order to support improvement at an institutional level, the QA/QI manager shares aggregated data from reviews with the HRPP leadership and the Research Community to identify trends and target areas for education. The program also makes self-evaluation tools available to investigators and study teams seeking to perform their own assessments. To learn more about HRPP QA/QI HRP-142, visit: https://www.umassmed.edu/globalassets/ccts/ccts-media/irb/updated-sops-2015/hrp-142-hrpp-qa-qi-program-final.pdf.

NATIONAL CENTER FOR DATA TO HEALTH (CD2H): The goal of CD2H is to make data more meaningful, open and accessible. The CD2H supports a vibrant and evolving collaborative informative ecosystem for the CTSA program and beyond. The CD2H harnesses and expands an ecosystem for translational scientists to discover and share their software, data and other research resources within the CTSA program network. The CD2H also creates a social coding environment for translational science institutions, leveraging the community-driven DREAM challenges as a mechanism to stimulate innovation. To learn more, click here.
RECRUITMENT AND RETENTION TOOLKIT: The Trial Innovation Network accepts toolkit submissions from CTSAs and reputable community health partners and provides them as a free resource to the research community. The materials on this site are designed primarily for CTSA program staffs. These resources are intended to provide a variety of information that includes best practices and evidence-based recruitment and retention strategies. Full information can be found at https://trialinnovationnetwork.org/recruitment-retention-toolkit/?key-element=1681

UMCCTS INTAKE PORTAL: The UMass Center for Clinical and Translational Science has implemented an intake/service request portal. Currently the portal is being utilized by the Office of Clinical Research for intake of all agreements and amendments. OnCore updates/corrections and Certificates of Confidentiality. The portal can be accessed on their newly updated website at https://www.umassmed.edu/ocr/

SHARE YOUR SUCCESS STORY

Have you had your research published that cites the UMass Center for Clinical and Translational Science? Has your patent been filed on technology developed using Center funding or resources? Did your pilot project receive external grant funding? Share it with us at ccts@umassmed.edu. Sharing your success demonstrates the importance and effect of the Center for Clinical and Translational Science at UMass.

Newsletter Submissions: To be included in the CCTS Monthly Newsletter, please send announcements, including a link, to ccts@umassmed.edu. The newsletter is published the first week of each month.

PLEASE REMEMBER TO CITE in all presentations and journal publications:
UMCCTS funded by NCATS Grants UL1 TR001453, TL1 TR001454, and KL2 TR001455.
