Paving the Way for Practice Success Under Value-based Payments: Implementing the Southern New England Practice Transformation Network

VISION
Create a community of learning utilizing cross-functional teams to share best practices, align efforts and resources
Innovate and add value to rework the job in practicing
Facilitate data-driven improvements in clinical care, patient experience and operational efficiency
Improve communication and coordination in the healthcare neighborhood

SOUTHERN NEW ENGLAND PRACTICE TRANSFORMATION NETWORK OVERVIEW

ACTIVITY STREAMS
• Recruitment and Engagement
  Collaborating with clinical partners to recruit clinicians and build strategic partnerships
• Transformation Support Intervention
  Serving as a change for continuous improvement, culture change, and personal and family engagement
  Providing resources that can facilitate improved clinical practice operations
• Data and Measurement
  Tracking and collecting quality measures and data for improved decision-making and resource allocation

PARTNERS AND COLLABORATORS

VALUE PROPOSITION
• National faculty and shared learning
• Website as a communication hub
• Data aggregation and reporting
• National ACOs

TRANSFORMATION STRATEGY

SESSIONS LEARNED
The Southern New England PTN is a complex, large-scale care transformation effort requiring:
• A multi-disciplinary approach and alignment with state and national care reform efforts
• A focused attention to working collaboratively across multiple provider networks, independent practice associations, and other collaborations
• Articulation of the value proposition for clinicians that captures "What’s in it for me?"

IMPLICATIONS FOR POLICY AND PRACTICE
Lessons learned will inform the further implementation of TCPI and other care transformation initiatives.
