We stay ahead of the evolving data landscape to provide timely, open access to scholarship data librarians need!

ABOUT JESLIB

Journal of eScience Librarianship (JeSLIB) is UMass Medical School’s open access, peer-reviewed journal to advance the theory and practice of data librarianship. JeSLIB explores the many roles of librarians in supporting eScience and welcomes articles by contributors from all areas of the globe related to education, outreach, policy, collaborations, tools, and best practices.

CELEBRATING 8 YEARS OF PUBLISHING!

The inaugural issue of the Journal of eScience Librarianship was published on February 15, 2012 via eScholarship@UMMS. The journal emerged as an outgrowth of many eScience projects and meetings that took place in New England. The journal continues as a global effort with Editorial Board members from around the country, and global readership.

BECOME A REVIEWER

A great way to be part of the cutting edge of your profession and promote professional development in STEAM librarianship is to be a peer reviewer. Come join our team of peer reviewers at JESLIB!

Learn more about JeSLIB on our website: escholarship.umassmed.edu/jeslib

INNOVATIVE ARTICLES

JeSLIB accepts traditional article types such as full-length research papers, commentaries and reviews. Our “eScience in Action” category encourages short, focused, and innovative projects, and “Video Articles” allow authors to present their work using multi-media.

IMPACT AND EXPOSURE

The “Readership Activity Map” allows visitors to see a visualization of full-text downloads in real time to show global reach and impact.

Each article landing page displays up-to-date download metrics. Authors receive monthly email reports containing download metrics for their articles.

Utilizing data from Altmetric and PlumX, article level metrics are displayed for each article. These metrics measure the attention an article has received online.

RESEARCH DATA ACCESS & PRESERVATION ASSOCIATION

JeSLIB and RDAP partner to publish a Special Issue containing proceedings and commentaries from the annual RDAP Summit. Members of the RDAP Publishing Committee serve as Guest Editors for the Special Issue.
