Congratulations on your pregnancy!

The purpose of this pregnancy plan is to support you in your goal for a healthy pregnancy and a healthy baby. Pregnancy is an ideal time for women to make good choices about their health and surround themselves with a team of people that will support them and connect them to the resources they need.

This plan will develop throughout your pregnancy as you explore the services offered by local health care providers and consider which resources would work best for you. When you are ready, and with your permission, this document will be shared with all the members of the team that you create so we can be sure that you have all the resources you need.
