Subject: Your Dissertation: ***Structural Association of Xist RNA With Inactive Chromosomes in
 Somati Cells: A Key Step In The
 Process That Establishes and Faithfully Maintains***

The Graduate School of Biomedical Sciences and the Lamar Soutter Medical Library are launching eScholarship, an Electronic Institutional Document Depository to archive the 300 plus dissertations published by our graduates since 1984. This is an exciting project which will provide increased access to your research, less expense to authors and the library, and a better presentation of the research work published by our graduates*.

The medical library has a paper copy of all dissertations which will be used to create the digitized copy. We are requesting your authorization to scan and place a digitized copy in the eScholarship depository.

5/30/2006

Attached is an authorization form. We ask that you sign and return the form by fax: 508/856-8363 or mail to: Mary Piorun, Lamar Soutter Library, 55 Lake Ave, No., Worcester, MA 01655

Or if you prefer, after reading the agreement form you may respond to this e-mail and grant your permission to add your dissertation to the eScholarship archive.

Sincerely,

Mary Piorun
