LEGENDS

1. Dx = diagnosis
2. Ht = height
3. Wt= weight
4. SAI = short-acting insulin
5. LAI = long-acting insulin
6. TDD = total daily dose of insulin
7. Time in = time of initiation of remission
8. Time out = time of completion of remission
9. HM = honeymoon
10. Yr = year
11. IDAA1C = insulin-dose adjusted hemoglobin A1c
12. PCR = partial clinical remission
13. Ln = log
14. Sex code = 1 is male, and 0 is female
15. DKA = diabetic ketoacidosis
16. SDS = standard deviation score
